

EXTEND YOUR PRODUCTIVITY WITH... EXTEND-A-WAND

WHAT MAKES IT THE BEST?

PIN-LOK adjustment design enables the operator to extend and retract the wand fast...up to 10 X FASTER...saving you time and money...no screw connectors to hassle with.

The universal gun mount and Suttner's ST2605 gun along with a unique mounting system makes field repairs quick and easy with just two allen screws.

Flat sided aluminum tubing extensions keep the cleaning nozzle inline with the gun...saving frustrating alignment time. The servicable end fitting allows for quick maintenance to the hose.

Extendawand offers quick attach cleaning accessories for every job from industrial to residential. Available are Rotating Nozzles, Brushes, Gutter Cleaning, Window Washing, Roof Washing.

MORE FEATURES FOR GREATER PROFITS:

- Thick wall extruded aluminum construction
- Extensions do not ride on one another eliminating binding up
- Reinforced impact resistant injected molded parts throughout
- Thermal comfort grip, no gloves required even at 210 F

SIX MODELS... ONE FOR EVERY APPLICATION.
