For Industrial or Professional Use Only  
**KEEP OUT OF REACH OF CHILDREN**

# BIO-GREEN

ENVIRONMENT FRIENDLY  
NON-CAUSTIC DETERGENT  
PROFESSIONAL TRUCK & HOUSE WASH

## BLENDING INSTRUCTIONS Non-Caustic Powdered Detergents

Remember - warm water (not to exceed 120°F) will always make powders go into solution easier. If cold water is used manual agitation may be necessary.

EnviroSpec products are manufactured in such a manner as to insure that once the product is totally dissolved that it will stay in solution for a very long period of time.

When mixing, fill a clean poly drum approximately 50% full of warm water and place the nozzle of a high pressure washer close to the bottom and continue filling while adding the powder slowly. When the drum is 90% full all of the powder should have been added. Continue filling until the drum is full.

Product is now a ready to use concentrate which will require further dilution.

## Health & Safety Information EFFECTS OF OVER EXPOSURE

- **Ingestion:** May cause gastric distress, vomiting and diarrhea.
- **Eyes:** Causes severe eye irritation
- **Skin:** Causes skin irritation
- **Inhalation:** Breathing dust may cause irritation of respiratory tract.

## Emergency First Aid Procedures:

- **Ingestion:** Drink large quantities of water or milk. DO NOT induce vomiting; never give anything by mouth to an unconscious person; seek medical attention immediately.
- **Eyes:** Check for and remove contact lenses. Immediately flush eyes for 15 minutes in clear running water while holding eyelids open; seek medical attention immediately.
- **Skin:** Wash contacted area with soap and water. DO NOT attempt to neutralize with chemical agents; if irritation persist, seek medical attention.
- **Inhalation:** Remove affected person to fresh air, wash mouth and nasal passages with water repeatedly; if breathing difficulties persist seek medical attention.
