

THUNDER-DECK

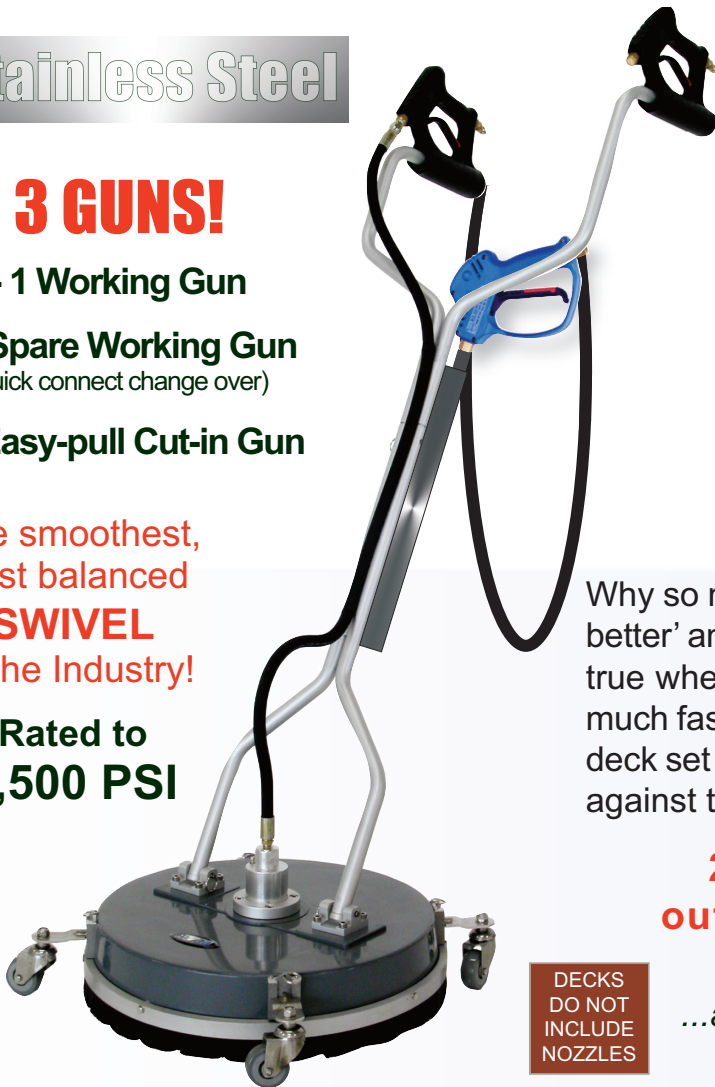

Stainless Steel

3 GUNS!

- 1 Working Gun
- 1 Spare Working Gun
(quick connect change over)
- 1 Easy-pull Cut-in Gun

The smoothest,
best balanced
SWIVEL
in the Industry!

Rated to
5,500 PSI

Featuring a precision **4-bearing, stainless steel swivel** that takes the 'side-load' beating when the bar hits an obstruction.

The following comparison chart shows the time taken to clean a typical 400 sq. ft. driveway with a 6 GPM @ 3500 PSI pressure washer.

- **THUNDER-DECK** 9 minutes
- Typical 30" Deck 14 minutes
- Typical 36" Deck 20.5 minutes

Why so much faster? You would think that 'bigger is better' and in many situations this is true. But it is not true when it comes to concrete cleaners. Bars turn much faster and clean more effectively with a smaller deck set up with extra bars. These times were tested against the industry's most popular decks.

24", OFF-SET 4-BAR DECK
out-cleans ANY 30" or 36" deck
in the industry...

*...and it will do it longer, more effectively
and with less down-time!*
