SuperFlo Polymer® Technology
for a Clean and Shine that Lasts and Lasts!

Happy 20th Birthday Prodigy

which means this month all PRODIGY will be sold at the Buy 12 Price!

Prodigy is, by far, one of the highest non-caustic detergent concentrations available in the industry. Prodigy exhibits excellent wetting, chelating, rinsing, and emulsification properties due to its high concentration of our SuperFlo Polymer® Complex System, an EnviroSpec exclusive. This exotic complex is formulated from a variety of unique dispersants, hydrotopes, and surfactants, which are not commonly found in detergent formulations.

SuperFlo Polymer® also provides a rejuvenation process for vehicles that have been cleaned with harsh corrosive cleaners and become dull. With an overabundance of 'gloss enhancers' Prodigy will bring most surfaces back at an acceptable appearance regardless of how badly damaged they have become.

Prodigy is only one of our many appearance products containing SuperFlo Polymer® finish protectors. These protectors form an invisible protective barrier so dirt, mud and road grime have a hard time sticking to the surface.

The general rule of thumb in detergent formulation is as follows: Approximately 1 gallon of water will hold approximately 1 pound of powder before separation begins. If your product begins to separate using this method, more often than not, your product has been camouflaged with what is known in our industry as "fillers". Fillers provide little to no value to the products integrity and/or performance. They are used primarily to add weight and increase the bottom line profit for the manufacturer. Using the 1 pound per 1 gallon rule, you can see the potency of Prodigy when you consider that we are able to thoroughly dissolve up to 2.3 pounds of Prodigy into 1 gallon of water without separation. To our knowledge, no other company can make this claim.

As the leader in contract cleaner formulations, EnviroSpec goes to great lengths in providing products that are both environment friendly as well as effective, an attitude not commonly found in such a demanding industry.

NOTHING CLEANS BETTER, FASTER AND SAFER THAN PRODIGY...
...ABSOLUTELY NOTHING!
