MR. MUSCLE

Trying to clean trailer bodies that are loaded with 'exhaust carbon' has been a nightmare for every contractor who has ever attempted to make a living washing commercial vehicles. Every mile traveled by 95% of every tractor/trailer on the highway results in more work and less profit for those who attempt to keep them clean. Since truck washing was the 'backbone' of my company many years ago I know first hand the difficulties you experience.

The absolute - only way to tackle this 'monster' is with solvents and not only the right family of solvents but plenty of them. Although it's ZP1 Complex Base - Prodigy is loaded with solvents...

Mr. Muscle contains 3-times as much.
