

The Best "Better Grade" PVC Knee Boot

Our **Better Grade** PVC Knee Boot Is Durable On The Outside And Comfortable On The Inside

Our Better Grade knee boot material is formulated with high quality PVC resins and low temperature additives. The result is a boot that has good abrasion resistance and excellent flexibility in cold temperatures.

- Injection molded construction for 100% waterproof protection.
- Flexible upper material stays supple in cold temperatures to make walking easier.
- Outsole material is soft for excellent slip resistance and absorbs shock when walking.
- Steel toe meets ASTM F 2413-05 M/1/75/C/75.
- Cleated outsole spits out debris for excellent gripping action.
- Removable polypropylene insole wicks perspiration to help keep feet dry and comfortable.

Ideal Applications: General purpose for Agriculture and Industry, Municipalities, and many Food Processing applications.

Chemical Resistance: Fats, certain acids, hydrocarbons, caustics, and other chemicals.

At Tingley "Better Grade means a comfortable fit, good performance, and long wear."

Cleated Outsole:
Spits out debris for great traction.
