The biggest complaints "EVER" with chemical injectors are:

1. With more than 125' of hose they won't draw chemical!
2. Although it is a 20% injector it doesn't draw enough chemical!
3. I wish I didn't have to use a 'pump-up' to apply bleach!

NOW YOUR HEADACHES ARE BEHIND YOU!

The Allison Chem-Inductor which includes the Allison Super Suds Sucker Injector allows you to draw an incredible amount of chemical.

The following test was based on using a typical injector advertised to draw at 20% (NOT OURS) mounted on a TS-2021 General Pump running at 5.6 GPM.

- | | |
|-------------------------------------------|--------------------------|
| 1. With 100' of hose - INJECTOR ONLY | 63 oz. of chem per min. |
| 2. With 100' of hose - WITH CHEM INDUCTOR | 204 oz. of chem per min. |

Now Check This Out!

- | | |
|-------------------------------------------------|--------------------------|
| 3. With 500' of hose - Competitors 20% Injector | 0 oz. of chem per min. |
| 4. With 500' of hose - WITH CHEM INDUCTOR | 204 oz. of chem per min. |

This means that regardless of which problem you are having you will still induct almost 2 gallons of chemical per minute into the system. Never again will you have to apply the product 2 or 3 times to get the job done. Now you'll be on your way after the first pass. Roof Cleaners using bleach really love this system.

No more 'pump-up' or 'back-pac' sprayers to lug around!
