SUPER HIGH SOLVENT TRUCK WASH

Even more than meticulous chemistry, EnviroSpec is defined by its continuous innovation. Since inventing SuperFlo Polymer and Gloss Enhancer, we've simply never stopped reinventing even better ways to master unique cleaning tasks.

One of our toughest challenges was developing a grease cutting, high yield solvent formula for the transportation industry in extreme hard water areas of the country. Most of the very best ingredients that one would prefer that would perform best for each problem (hard water, heavy grease/oil) typically will not hold up in a blended solution. We had to develop a special coupling agent that could make this happen.

Black Jack is, without question, one of the most aggressive, industrial truck washes in the transportation, mining & oil industry.

USE THIS PRODUCT on vehicles and oil field/mining equipment that is heavily encrusted in grease, grime, oil and general fallout pollutants. Contains extra Solvents & Gloss Enhancers

The secret of business is to know something that nobody else knows.
