EMULSIFIER PLUS

is a **NON-CAUSTIC DETERGENT**
that can be used as a stand alone detergent
or mixed with bleach to create a chemical that will remove
mildew AND all other pollutants that bleach cannot clean.

PERFECT FOR HOUSE WASHING

THIS PRODUCT CONTAINS:
“GLOSS ENHANCERS”
&
“RINSE AIDS”

MIXING INSTRUCTIONS:

When mixing, fill a clean poly drum approximately 60% full of warm water (approximately 100-120°F) and place the nozzle of a high pressure washer close to the bottom and continue filling while adding the product slowly. When the drum is full all of the powder should have been added.

USE INSTRUCTIONS:

Add 3 gallons of Emulsifier Plus to 2 gallons of bleach.

Mix with bleach on a job basis. Emulsifier Plus and bleach will separate after sitting together for a couple of days.

In case of spill call

Health & Safety Information EFFECTS OF OVER EXPOSURE

- Ingestion:** Damage to renal system may occur
- Eyes:** Causes severe eye irritation
- Skin:** Causes skin irritation
- Inhalation:** Causes respiratory tract irritation

Emergency First Aid Procedures:

- Ingestion:** NEVER give anything by mouth to an unconscious person. If swallowed, DO NOT INDUCE VOMITING. Give large quantities of water or, if available, give several glasses of milk. If vomiting occurs spontaneously, keep airway clear. Seek medical attention immediately. Causes severe irritation and possible tissue damage to mucous membranes of the mouth, throat, esophagus, and stomach.
- Eyes:** Object is to flush material out immediately with large amounts of water for at least 15 minutes forcibly holding lids apart to ensure complete irrigation of all eye and lid tissue. Will cause tissue destruction and eye damage if not treated.
- Skin:** Skin: Flush thoroughly with cool water under shower for at least 15 minutes while removing contaminated clothing and shoes. Do not reuse non-rubber shoes. Wash clothing before reuse. If irritation persist seek medical attention immediately. Will cause severe irritation and burns on continued contact.
- Inhalation:** Inhalation: Exposure to mist, dust or spray may cause clothing, sneezing, or other symptoms of upper respiratory tract irritation. Overexposure may result in lung tissue damage due to corrosive effects.
