INDEX

Class 2 Vests.....3, 4, 5

Lightweight, affordable Class 2 vests feature breathable mesh or solid polyester material with hook and loop or zipper closures. Additional specialty styles include:

Two-Tone – High visibility contrasting fluorescent material.

Adjustable – Hook and loop side adjustment straps on both sides of the vest allow for flexible sizing.

5 Point Breakaway – Hook and loop “breakaway points” located at each shoulder, sides, and front.

FR Modacrylic – Conforms to ASTM F1506 for Flame Resistance.

Surveyor Styles – Solid front, mesh back with 8 pockets.

Class 3 Vests and Class E Pants6

Comfortable, durable, Class 3 vests and Class E pants constructed of breathable mesh material with hook and loop or zipper closure and 360° conspicuity.

Additional specialty styles include:

Two-Tone – High visibility contrasting fluorescent material.

T-Shirts and Sweatshirts7

T-Shirts utilize Birds Eye polyester high wicking moisture management fabric.

Sweatshirts are constructed of a comfortable high density polyester material.

Class 3 Insulated Outerwear.....8

Class 3 Bomber – Provides warmth, comfort, and safety in a durable, affordable jacket.

Phase 3™ – A revolutionary 3 layer material that keeps you warm and dry, yet cool and comfortable for 3 season protection. Offers amazing warmth-to-weight ratio in a breathable, wind, and water resistant system.

Class 3 and Class E Waterproof, Breathable Outerwear.....9

Icon™ – Premium ANSI compliant breathable and high visibility outerwear, engineered to provide superior comfort and safety in the toughest work environments.

Icon 3.1™ – Includes all the features of the Icon with the addition of a removable 300g insulating fleece jacket for superior year round safety and comfort.

Vision™ – An innovative product that is ANSI 107 compliant for high visibility and breathability. The Vision provides all season comfort at an affordable price.

Class 3 Rainwear10

Comfort-Brite® – Highly visible, flame resistant, and loaded with special features. Comfort-Brite is lightweight, durable, and affordable.

Electra™ – The combination of flame resistant PVC coating on non-woven Nomex® provides excellent thermal performance, in a soft, lightweight rain suit.

Job Sight™ High Visibility Apparel - Safe, Comfortable, Durable Protection

Tingley has been protecting workers for over 100 years - and the future just got brighter.

Generations of workers have looked to the Tingley name for quality and service since 1896. A world leader in the manufacture of protective footwear and clothing, Tingley Rubber Corporation builds in high performance and durability in every product it makes. Now this legacy of excellence can be found in Tingley's new Job Sight High Visibility Apparel.

Designed to meet the ANSI/ISEA 107 standard, Job Sight apparel is engineered to provide excellent daytime and nighttime visibility, superior comfort, and safety protection in the toughest work environments.

With the growing recognition and adoption of the ANSI 107 Standard, Tingley's Job Sight products are designed to make ANSI compliance easy. The ANSI/ISEA 107 Standard provides a uniform, authoritative guide for the design, performance specifications, and use of high visibility and reflective apparel, including safety vests, shirts, pants and outerwear. Job Sight products meet these requirements providing conspicuity to the user under any light condition by day and under illumination by vehicle headlights at night, greatly enhancing the visibility of workers.

From safety vests to waterproof/breathable outerwear, Job Sight High Visibility Apparel brings the same attention to detail and design insight that have kept Tingley an industry leader for over a century.

BE SEEN:

Advanced materials ensure you will be visible - rain or shine, day or night.

BE SAFE:

Our 100% ANSI 107 apparel makes safety compliance easy.

BE COMFORTABLE:

Choose from our wide range of vests, shirts, and outerwear for comfort, 365 days a year.

MUTCD 2009 Revision - High Visibility Apparel

Under rules published December 16, 2009, the Federal Highway Administration (FHWA) adopted the 2009 Manual on Uniform Traffic Control Devices (MUTCD), the standard for all of the nation's roadways. The revised MUTCD now requires that workers in a right-of-way or work zone, must wear high visibility apparel that meets Performance Class 2 or 3 requirements of ANSI/ISEA 107.

The revised MUTCD goes into effect January 15, 2010, and all states will have to adopt it as their standard within two years. Workers will have to be in compliance with the high visibility apparel requirements by December 31, 2011.
