For Industrial or Professional Use Only
KEEP OUT OF REACH OF CHILDREN

INTERFACE "9000"

is a unique blend of specialty surfactants specifically formulated to "break" the "negative charge" which produces the "film" on transportation vehicles.

Specifically Formulated as a
"FILM FREE" CLEANING ADDITIVE

High Performance
Chemical Formulations for
THE ENVIRONMENT FRIENDLY CONSUMER

MIXING INSTRUCTIONS:

For best blending results add Interface 9000 to a clean, 55 gallon mixing vat that has been charged with 30 gallons of warm water (110-115°F). With the blender running start adding you other products slowly.

Interface 9000 has superb coupling capabilities which will allow the contract cleaner to add more product to water which will yield a higher detergent concentrate.

Adding Interface 9000 into any alkaline detergent product can double or even triple its performance.

Health & Safety Information EFFECTS OF OVER EXPOSURE

- Ingestion:** Damage to renal system may occur
- Eyes:** Causes severe eye irritation
- Skin:** Causes skin irritation
- Inhalation:** Causes respiratory tract irritation

Emergency First Aid Procedures:

- Ingestion:** If patient is conscious, give several glasses of water for dilution effect and contact a physician. Do not induce vomiting. Do not give an unconscious person anything by mouth. Get immediate medical help.
- Eyes:** Immediately flush with copious amounts of water for at least 15 minutes or until all material is removed. If irritation develops or persists, get medical attention.
- Skin:** Immediately remove contaminated clothing and flush area with large quantities of water for at least 15 minutes. Launder clothes before reuse. If irritation develops or persists, get medical attention.

- Inhalation:** Remove from contaminated atmosphere. If breathing has stopped, give artificial respiration then oxygen if needed. Get immediate medical attention
