*ALLISON PUMPS come with a <u>2-YEAR 'Bumper-to-Bumper' WARRANTY</u> against failure under normal wear and tear of any component to include Check Valves, Packings, Oil Seals, Head, Bearings, Crank and Pistons.

For over 40 years my machines have been working harder and lasting longer than any machine in the industry. Why? I just never learned how to build a 'cheap' machine. So if you are looking for a machine that can take anything you can throw at it *and still ask for more* - maybe you should try an *Allison-built* machine your next time around.
