K9s for Warriors

This innovative non-profit rescues dogs from shelters, and trains them to be service K9s and companions for military veterans suffering from Post Traumatic Stress Disorder.

K9SFORWARRIORS.ORG

WHY ARE SO MANY VETERANS STRUGGLING?

The emotional traumas that often result from the horrors of the battlefield include depression, paranoia, panic attacks and lack of trust. Sadly, thousands of our brave warriors come home too impacted to manage the challenges of normal life.

WHAT SEEMS TO HELP?

Service dogs are medically proven as a confidence-building recovery aid for vets who have been scarred by extreme wartime stress. At *K9s Academy*, the veteran is involved in the training of their new canine partner. This allows them to take part in their own recovery, while forging a very special and loving bond.

WHAT IS ENVIROSPEC DOING?

This high quality training program costs money to run. As an ongoing supporter of *K9s for Warriors*, EnviroSpec has recently made a contribution of \$10,000. That check came from the company's *Soap for Hope Fund*, which turns all profits from the EnviroSpec chemicals you buy into funding for worthy causes.

Envirospec will also work to find jobs in the pressure cleaning industry for graduates of *K9s Academy*. In addition, selected veterans will be set up in business for themselves, with free training and equipment.

WHAT CAN YOU DO?

First, you can go to **K9sForWarriors.org** and learn more about this innovative, compassionate and very effective program. Next, you can click on the link to **Donate**, so you can generously give something back to those who have suffered while volunteering to fight our nation's battles overseas.

Also, if your contracting business is doing well enough to hire a responsible, hard-working employee, consider giving that job to a brave veteran. Find out more by contacting Soap4Hope@EnviroSpec.com.

ARE YOU A VETERAN?

Military veterans in good standing are eligible for certain discounts on EnviroSpec equipment, supplies and chemicals. To find out more, email Soap4Hope@EnviroSpec.com.
