## SDC HEATER

#9898-WH 12V SDC Beckett up to 12 GPM ~~\$3,295.00~~

Standard Feature:

### 2-Second Complete Burner Diagnostic Center

By pressing each of 3-buttons the center will tell you to either replace a flow/pressure switch, thermostat or hi-limit switch.

## END DISCHARGE SEVERE DUTY HEATERS

These are the most efficient heaters in the industry. While many heaters only have 160' of imported coil pipe our SD Heater Series have 260' of domestic cold rolled premium pipe.

End discharge is the professionals choice simply because they can actually see if the heater is mis-firing. The end discharge design eliminates rain or other containments from entering the firing chamber.

Complete with Flow Switch, Thermostat, Hi-Limit Switch and White Rodgers burner relay that extends the life of burner components.

#9898ED \$3,995.00

**SALE \$2,977.00**

25 AMP Engine Recharging System Required.

Customer Pays Shipping on pressure washers and heaters

Place your order at [www.envirospec.com](http://www.envirospec.com) for same day shipping.

**Allison** *Power in the hands of a few!*

## 2015 RENEGADE SUPER SKID

Standard with:  
Allison Burner  
Diagnostic Center

95% of all burner problems are with flow or pressure switches, thermostats or hi-limit switches. With other machines you will have to 'worm' your way through a handful of wire in hopes

that you can find the problem. With a 2015 Warhorse you will simply continue to press each button while holding the gun open until the burner comes on. When it does *you have just found the problem.*

Features:

GPM: 5.6 to 11.0

PSI to 4,000

Burner Diagnostics

Flow Switch

Thermostat

Hi-Limit

Safety Relief

Satinless Option(shown)

Vanguard & Honda Engines

Belt Drive

*For the discerning professional  
who kown and demands  
power, performance & longeviety.*

*Call Dan Galvin  
for availability & pricing*

**We have over 150,000 Power Wash Items ready to ship!**

# SERPENTINE HIGH PRESSURE HOSE

## HOSE REEL

- The Industry's **Best Hose Reel Value!**
- Solid Steel Construction
- Durable Powder Coat
- Full Flow Swivel Brass Joint
- 5,000 PSI Rated, 3-1 Burst Factor

#1316 Holds 200' of 3/8"

~~\$159.95~~ **\$127.95**

100% of the profits generated from our Chemical Division are donated to charities for Vets, Children and Animals

# EXHAUST HOOD SWIVELS

## Exhaust Hood Swivel

### NON-ADJUSTABLE 2-NOZZLE

- 1519 3"
- 1520 6"
- 1521 12"
- 1522 16"
- 1523 20"
- 1524 24"

### NON-ADJUSTABLE 3-NOZZLE

- 1531 3"
- 1532 6"
- 1533 12"
- 1534 16"
- 1535 20"
- 1536 24"

### • NON-ADJUSTABLE SWIVELS

Fixed nozzle positioning ideally suited to be dropped down the exhaust hood.

### • ADJUSTABLE SWIVELS

Adjustable nozzle positioning to allow the swivel to pull itself along.

• **NOZZLES:** These swivels require 1/8" MEG Nozzles Sold Separately

To order the correct nozzles take the nozzle that you are presently using and divide it by the number of nozzles required by the Exhaust Hood Swivel you are ordering. For example: If you typically use a #6 nozzle such as a #1506 and you are buying a 3-Nozzle Swivel you will order 3 each #2 nozzles such as a #1502.

## Exhaust Hood Swivel

### ADJUSTABLE 2-NOZZLE

- 1525 3"
- 1526 6"
- 1527 12"
- 1528 16"
- 1529 20"
- 1530 24"

### ADJUSTABLE 3-NOZZLE

- 1537 3"
- 1538 6"
- 1539 12"
- 1540 16"
- 1541 20"
- 1542 24"

## ALLISON REEL SWIVEL

- Rated to 5,000 PSI
- 3/8" FPT for machine to reel hose
- 1/2" FPT connects it to the reel

#1591 \$24.78

## HOSE REEL SWIVEL by: Super Swivel

- Manufactured by Super Swivel
- Rated to 5,000 PSI
- Includes Grease Fitting

#1463 \$35.85

- 3/8" FPT machine to reel hose
- 1/2" FPT connects to the reel

## 19 KOHLER ALLISON PUMP 8.6 GPM @ 2500 PSI List \$3,995.00

## CONTRACTOR ~~\$2950.00~~

- #1083 1/2" x 1/2" **\$23.67 Any Size**

**Only at [envirospec.com](http://envirospec.com)!**

# Allison Chemical Injectors

**What do the PROS say about our injectors?  
...now these things SUCK!**

## 33% SUPER SUDS SUCKER

The industry's #1 selling chemical injector

- Draws Chemical with 500' of HP hose
- For machines from 2 GPM to 10 GPM

**#1964** ~~\$87.44~~ **\$59.95**

40 years ago John Allison had a Mobile Wash business and he could never find a chemical injector that would 'SUCK' enough chemical - so he made one and since that time the Allison Super Suds Sucker has become the industry's #1 selling chemical injector.

## 27% SUDS SUCKER

- Ready-To-Go injectors come with Quick Connects, filter & chem line
- All come with Ceramic Ball

<b>Injector Only</b> (shown)		
#1441	2-5 GPM, Non-Adj.	\$24.95

### 30' LONG RANGE SOAP NOZZLE

# PK852 \$5.78

### BACK-PAK SPRAYER

- 4-Gallon Capacity
- 2 Std Spray Tips
- 2 Bonus Tips
- Viton Seals

#BPS-04 \$119.95

### COMPACT FILTER

- 50 Mesh
- Mounts directly to Pump Head
- 1/2" In/Out with by-pass port

#1009 \$12.77

### CLEAR BOWL FILTER

- 50 Mesh

Either \$14.95

#1012 1/2" In/Out  
 #1013 3/4" In/Out

### PREMIUM FILTERS

- Allison 'Big Gulp' Filters won't starve and overwork your Pump.
- Extra large internal chamber
- Extra large ports for maximum flow
- Handles up to 22 GPM
- 50 mesh screen, 1" inlet/outlet

#3798 3/4" Premium Water Filter \$37.95  
 #1015 1.0" Premium Water Filter \$37.95  
 #3799 1.0" Premium Water Filter \$37.99 w/ 'Quick' Clean-Out

### PRESSURE SWITCH

#1370 3,650 PSI, 1/4" MPT \$24.07  
 #1371 3,650 PSI, 3/8" MPT \$26.95  
 #1372 6,500 PSI, 1/4" MPT \$64.95

### DIRECT MOUNT FILTER

- Mounts directly to Pump Head
- 50 Mesh with brass with clear bowl

#1011 with By-Pass Port \$9.84

### BECKETT BURNERS for Power Washers

Ours are the only burners that include a fuel pressure gauge and is preset to 140 psi for maximum burn efficiency.

#1390 \$415.35  
 12 Volt ADC heats water up to 6 GPM  
 #1391 \$525.97  
 12 Volt SDC heats water over 6 GPM  
 #1393 \$357.74  
 115 Volt AFG heats water up to 6 GPM  
 #1394 \$435.73  
 115 Volt SF heats water over 6 GPM

### Allison '2-SECOND' BURNER DIAGNOSTIC CENTER

As fast as you can mash 3 buttons is how fast you can find out why your burner is not working!

#LBX30015 **\$149.95**

Super Easy Hook-up with easy to understand instructions

### FLOW SWITCH

#1367 VMO\* \$39.95  
 #1368 VHM\*\* \$39.95  
 #1369 VHM\*\* \$54.95 (premium)  
 #2272 VHM\*\* \$91.67

\* Vertical Mount Only  
 \*\* Vertical or Horizontal Mount

### IGNITOR TESTER

- If you own a hot water pressure washer - you must own one of these. Diagnose burner problems in 5-seconds rather than 2-hours.

## FUEL FILTERS

- Removes water from fuel
- The M-T-M is the most popular

- #1794 M-T-M \$37.58
- #1419 Racor \$44.95

## 12-VOLT PUMP CLUTCH

- Stops the pump when the gun is released.
- Pressure or flow switch is required
- For engines up to 22 HP

#9333 \$239.00

## THERMAL PROTECTOR

- Installs on inlet side of pump and allows cold water to enter if the gun is left in by-pass too long.

- #1076 1/2" End Discharge \$ 6.08
- #5575 3/8" End Discharge \$ 4.45
- #1062 3/8" Side Discharge \$12.77

## SAFETY PRESSURE RELIEF VALVE

- Rated to 6000 PSI/12 GPM
- #0534 Premium \$18.95
- #1126 Valve w/Barb \$17.95

## EASY START VALVE

- For 'rope-start' pressure washers
- Installs on high-pressure side of pump and relieves back-pressure when starting.

#1124 \$19.95

## SOOT REMOVER

- Add to burner fuel to stop smoking & keep coils clean

- #6998 Pint \$14.78
- #6999 Quart \$18.84

## FOAM CANNON

- Attaches to end of wand
- Throws a thick foam
- Works on units up to 6.6 GPM
- Rated for 3,000 PSI
- Order with or without bottle.

- #1273 With Bottle \$56.95
- #1273-N Without Bottle \$52.95

## BRASS SOAP NOZZLES

- The smaller the hole size the higher the pressure and the less your injector will draw.
- The larger the hole size the more chemical your injector will draw and the pressure will be less.

- #1876 Screw-In, 65°, 40 Hole Size
- #1877 Quick Connect, 65°, 40 Hole Size

## STAINLESS SOAP NOZZLES

## THE ONLY PUMP IN THE INDUSTRY WITH A 2-YEAR 'BUMPER TO BUMPER' WARRANTY!

**AND 210° PACKINGS!**

Our pumps run harder and last longer than any other pump in the industry. **WHY?**

- Heavy Duty Reinforced Brass Heads with External and Internal Bracing.
- Large Diameter Stainless Steel Valve Caps with Increased Thread Depth.
- Oversized Bearings for greater belt 'side-loads' means longer pump back-end life.
- Heavy Duty Connecting Rod with Guide Pins for Perfect Cap Alignment.
- 'State of the Art' Packing Design means longer, uninterrupted run-times.
- Cool-run Technology and Extra Capacity Oil Sumps promote longevity.

**Installed Features include...**

- **6,000 PSI Pressure Gauges**
- **Pump Rails for Shafted Pumps**
- **Safety Pressure Relief Valve**
- **Easy Start Valve**
- **Quick Drain Oil Plug**

#9830 \$795.00

**OUR INDUSTRY'S  
#1 SELLING  
LONG DISTANCE CHEM NOZZLES**

You're paying for  
liquid detergents that are  
98% water.

Why not buy the  
powder  
and add your own  
water?

Forty years ago, a contract cleaner named John Allison noticed that the the detergent products he was buying were about 98% water and 2% chemical. That means even today, **you're paying a premium price for someone else's water!** On top of that, you're paying to *ship* all that heavy water.

Back in a home-made lab, John formulated super-concentrated detergents in powder form. He started selling them to contractors, who found that they **outcleaned everything else on the market.**

Now, John's company **EnviroSpec** sells cleaning chemicals with SuperFlo Polymer™ for every need, in powder form. Smart contractors have found that all that excess expense **now becomes excess profit!**

Come check out the  
catalog of chemicals  
at **EnviroSpec.com**  
or call 800.346.4876

**FREE SHIPPING on orders of \$150+!**

## EXAMPLE:

You could purchase a 55 gallon drum of truck wash, containing 25 pounds of chemical, for about **\$500**

## OR:

You could just purchase the powdered chemical from **EnviroSpec** and add your *own* water for about **\$50!**

Buying detergent products in small quantities?

Then you're paying **even more** for all that water!

# EnviroSpec.com

# CHISEL **NEW!**

THE **MOST POWERFUL** OF ALL THE TRUCK WASH DETERGENTS

And yet it is Non-Caustic and loaded with grease release solvents and **Gloss Enhancers**

Contains a heavy concentration of butyl solvents, 'high-yield' builders, surfactants, 'quick rinse' agents and a...

...**DOUBLE DOSE** of silicone based **GLOSS ENHANCERS**.

**55 GALLONS  
SALE \$199.00**

Available Sizes:

55 Gallon Drum Pak #CH55 ~~\$228.00~~  
5 Gallon Drum Pak #CH5 \$ 50.00

**SHIPPING INCLUDED**

To determine which product is best suited for you visit our website at [www.envirospec.com](http://www.envirospec.com)

\*Perfect 'Step 2' of Acid/Alkaline cleaning process

WHEN NOTHING ELSE WORKS YOU CAN BET THAT CONTRACTORS THAT KNOW WILL ALWAYS TURN TO...

## CHISEL

60 pounds of pure SuperFlo Polymer, an extra gallon of specialty grease cutting solvents, extra water softeners, extra 'quick-rinse' aids and a double dose of EnviroSpec's famous Gloss Enhancers makes CHISEL the most incredible truck wash and all purpose cleaner/degreaser in the industry.

**USE THIS PRODUCT** as the most concentrated, most powerful truck wash in the industry. This is the ideal product for those accounts that you only see 1 time per month or even longer intervals.

We have met the demands of the Professional Contractor for over 40 years.

# PRODIGY

**55 GALLONS  
SALE \$139.00**

Best suited for washing and degreasing over the road commercial vehicles.

One drum pak of PRODIGY makes **55 GALLONS** of a Severe Duty Extract.

Contains blends of 'high-yield' builders and couplers, solvents, surfactants, wetting agents, rinse aids and silicone based gloss enhancers.

Available Sizes:

\*Perfect 'Step 2' of Acid/Alkaline cleaning process

## PRODIGY CONTINUES AS THE INDUSTRY'S #1 TRUCK WASH DETERGENT

In September 1982 the SuperFlo Complex was conceived. At that point, it was still not available to the professional power wash industry simply because there was no EnviroSpec at the time.

Then in 1986 John Allison, ex-mobile washer and the inventor of SuperFlo Polymer, brought this exciting 'chemical complex' to market in his first truck wash detergent which he called Prodigy. Prodigy is still recognized today as the absolute finest truck wash detergent in the industry.

There's no room for a "a mediocre truck wash." Those products are best left on the grocery store shelves for consumers who do not necessarily require professional grade products to carry on their day-to-day lives.

Powered by the most sophisticated blend of builders, surfactants, wetting and rinse aids Prodigy takes the essence of the iconic SuperFlo Polymer Complex and pushes it to the limit.

**USE THIS PRODUCT** when vehicles are very dirty and there is a lot of exhaust carbon on the surface or when accounts only wash every 4-8 weeks or longer intervals. Contains Gloss Enhancers.

Protecting the earth begins when EnviroSpec products hit the surface.

# VIPER

## FORMULATED EXCLUSIVELY FOR WHITE VEHICLES

One drum pak of VIPER makes **55 GALLONS** of a Severe Duty Extract.

Contains a heavy concentration of butyl solvents, 'high-yield' builders, surfactants, 'quick rinse' agents and silicone based gloss enhancers.

**55 GALLONS  
SALE \$139.00**

\*Perfect 'Step 2' of Acid/Alkaline cleaning process

## UNCOMPROMISING SAFETY AND ENVIABLE PERFORMANCE

CUSTOMER DEMANDS AND OUR FLAWLESS DELIVERY PROVIDE UNCOMPROMISED PERFECTION.

There are no compromises. Both in-field development and customer demands are the pinnacles of modern day development at EnviroSpec.

Not exclusive to cleaning applications, *safety and performance* experiences extends to all contractors and all industries who are passionate about our products.

Viper is a specialty product specifically formulated for the 'high volume' truck washing Industry where exhaust fumes have become attached to the stack side of the trailer body & rear engine areas of city buses. Coupled with an extra dose of carbon release activating solvents and rinse aids, Viper also finds itself being utilized in other areas where the heavy build-up of grease & oil is present.

Viper comes packaged in a two-part system. One part is approximately forty (40) pounds of Viper extract. The second part is a liquid Carbon Release Activator. The two combined will make 55 gallons of a Severe Duty Extract that can be further diluted into a 110 gallon container that will yield a heavy duty concentrate.

**USE THIS PRODUCT on large accounts that you wash every 1-4 weeks and where *speed in production* is the objective. Contains extra solvents, rinse aids and Gloss Enhancers.**

We're always raising the level of performance to meet your expectations.

# BOND BREAKER

**55 GALLONS  
SALE \$174.00**

Best suited for a touchless truck washing and 'road film' remover.

One drum pak of BOND BREAKER makes **55 GALLONS** of a Severe Duty Extract.

Contains blends of 'negative charged' surfactants, 'high-yield' builders, surfactants, silicone based gloss enhancers and a heavy concentration of solvents to cut exhaust carbons.

Available Sizes:

55 to 110 Gallon Drum Pak	<b>#BB55</b>	<del>\$190.00</del>
30 to 60 Gallon Drum Pak	<b>#BB30</b>	\$127.20

\*Perfect 'Step 2' of Acid/Alkaline cleaning process

## THE INDUSTRY'S ONLY 'TOUCHLESS' TRUCK WASH

As the industry's only exclusive manufacturer of *job-matched* mobile power wash detergents, we've built an extensive and diverse portfolio of winning performance solutions. Everywhere contractors travel, an EnviroSpec *job-matched* product is ready to meet another challenge.

One of the toughest challenges we have ever undertaken was that of *film free* cleaning. What began as our breakthrough in touchless, *film free* cleaning has now become the standard that all competitors strive to conquer. *None have.*

Our customers will tell you that EnviroSpec has a *history* of making *history*. Since our first product, EnviroSpec has set the pace for what all detergent manufactures would like to someday become. With an ongoing stream of *firsts in safety and performance*, we have an even more exciting road map to the future. And while there's a never ending challenge for new achievements, there's only one reason why EnviroSpec remains first in innovation and that is our *obsession* for *safety and performance*.

**USE THIS PRODUCT** on vehicles that you wash every 1-2 weeks when you want to remove 'road film' without having to brush the vehicle. (Premium Wash/Premium Price) Contains Gloss Enhancers

At EnviroSpec quality is not an act. It is a habit.

# BLUE LIGHTENING

Best suited for washing tractor/trailers in hard-water areas.

One drum pak of VIPER makes **55 GALLONS** of a Severe Duty Extract.

**55 GALLONS  
SALE \$139.00**

Contains blends of oil and grease cutting emulsifiers, 'high-yield' builders, and heavy concentration of solvents to cut exhaust carbons, surfactants and silicone based gloss enhancers.

Available Sizes:

55 to 110 Gallon Drum Pak #BL55	<del>\$152.00</del>
30 to 60 Gallon Drum Pak #BL30	\$ 92.80
5 to 10 Gallon Drum Pak #BL5	\$ 50.00

**SHIPPING INCLUDED**

\*Perfect 'Step 2' of Acid/Alkaline cleaning process

## SURFACES STAY WETTER - LONGER WITH BLUE LIGHTENING

We are proud of our commitment to continue to support all of our industry professionals who know, understand and demand the very best products that will make their jobs easier.

It should be of no surprise that over 90% of all of our customers who have used our products and who are still in the industry - *still use our products today. Yes, it is hard to improve upon perfection.*

Our early history was written with the invention of SuperFlo Polymer and Blue Lightening is just another example of the 'job matched' cleaners that are formulated with that technology. What makes Blue Lightening different is the addition of Lorox LO which helps to keep the surface wetter, longer on those long hot days when evaporation adds to the challenge.

Truck Washing where heavy *build-ups* of exhaust carbon is present, house washing, brick and masonry cleaning, car washing, wood surfaces & engine degreasing are just a few of the cleaning tasks that are easily handled by Blue Lightening.

**USE THIS PRODUCT on vehicles washed with cold water equipment every 1-2 weeks. A special foaming agent has been added to keep this product from drying to quick. Contains Gloss Enhancers.**

# MR. MUSCLE

Best suited for washing & degreasing trucks, trailer bodies and engines.

One drum pak of VIPER makes **55 GALLONS** of a Severe Duty Extract.

**55 GALLONS  
SALE \$179.00**

Contains blends of 'high-yield' builders and couplers, a heavy concentration of solvents to cut exhaust carbons, surfactants, wetting agents, rinse aids and silicone based gloss enhancers.

\*Perfect 'Step 2' of Acid/Alkaline cleaning process

## IN-BETWEEN SURVIVAL AND MADNESS LIES 'OBSESSION.' John Allison

Our entire cleaning philosophy was set in motion in the early 70's when John Allison, the owner of EnviroSpec, started his mobile wash business and quickly realized that if he was ever going to succeed he had to learn how to make his own cleaning detergents. He did and the rest is history.

With groundbreaking technology such as SuperFlo Polymer and Gloss Enhancers, today the EnviroSpec arsenal of high performance professional mobile wash chemicals are the industry's first choice. A testament from the pro's who use our products is summed up in four simple words: *The best or nothing.*

Mr. Muscle has a 40 pound base of Prodigy, the industry's #1 Selling Tractor/Trailer Wash, plus a separate container of a 'high-yield' solvent additive that really cranks up the horsepower and safely cuts through the heavy build-up of carbonaceous pollutants such as the exhaust typically found on over-the-road trailer bodies and fifth-wheel grease!

**USE THIS PRODUCT** when vehicles are extremely dirty and when exhaust carbon, grease and oil is 'caked' on the surface or when accounts only wash every 8-16 weeks. Contains Gloss Enhancers.

EnviroSpec has always predicted it's future through creation.

# NEVER DULL

Contains citrus solvents that safely clean tractor/trailer bodies.

One drum pak of VIPER makes **55 GALLONS** of a Severe Duty Extract.

**55 GALLONS  
SALE \$139.00**

Contains a heavy concentration of d'Limonene solvents, 'buffered' heavy duty builders, surfactants, 'quick rinse' agents and silicone based gloss enhancers.

Available Sizes:

## SHAPING THE FUTURE OF AN INDUSTRY

WE HAVE ALWAYS BEEN BEST AT TRANSFORMING HOW MILLIONS OF PEOPLE VIEW 'CLEAN.'

In the 1980's we took the lead in performance cleaning chemicals. We delivered then and we haven't given any ground back since. We are continuing to create products from the future with today's environment in mind. After all, the *evolution of clean* is all about *what's next*.

Never Dull was produced for contractors who clean vehicles that are products of an image conscious customer. More time and expense goes into the production of their vehicles. Iron paint itself is very expensive as is the lettering and graphics that present the company's position in the marketplace. With all this in mind, however, nothing, absolutely nothing will get a fleet owner more upset than when a contractor *dulls* their polished aluminum tanks, vehicle wrap or paint because they used an *unbuffered* industrial detergent to clean their fleet.

Never Dull is the perfect cold or hot water detergent for such vehicles. It contains a unique blend of solvents, surfactants & chelators that we've developed specifically for those trucks that need a product *tuff* enough to remove pollutants yet gentle enough to clean the surface and never leave it looking *dull*.

**USE THIS PRODUCT** on expensive vehicles that are washed every 1-2 weeks. Contains special 'buffering' agents that help guard against streaks and surface 'dulling.' Contains Gloss Enhancers.

...EnviroSpec's quality & performance is a constant journey, not a destination.

# BLACK JACK

Best suited for exhaust carbon cleaning on tractor/trailers.

One drum pak of VIPER makes **55 GALLONS** of a Severe Duty Extract.

**55 GALLONS  
SALE \$169.00**

Contains blends of 'negative charged' surfactants, 'high-yield' builders, a heavy concentration of solvents to cut exhaust carbons, surfactants and silicone based gloss enhancers.

Available Sizes:

55 to 110 Gallon Drum Pak	<b>#BJACK55</b>	<del>\$182.00</del>
30 to 60 Gallon Drum Pak	<b>#BJACK30</b>	\$119.58
5 to 10 Gallon Drum Pak	<b>#BJACK5</b>	\$ 50.00

**SHIPPING INCLUDED**

\*Perfect 'Step 2' of Acid/Alkaline cleaning process

## SUPER HIGH SOLVENT TRUCK WASH

Even more than meticulous chemistry, EnviroSpec is defined by its continuous innovation. Since inventing SuperFlo Polymer and Gloss Enhancer, we've simply never stopped reinventing even better ways to master unique cleaning tasks.

One of our toughest challenges was developing a grease cutting, high yield solvent formula for the transportation industry in extreme hard water areas of the country. Most of the very best ingredients that one would prefer that would perform best for each problem (hard water, heavy grease/oil) typically will not hold up in a blended solution. We had to develop a special coupling agent that could make this happen.

Black Jack is, without question, one of the most aggressive, industrial truck washes in the transportation, mining & oil industry.

**USE THIS PRODUCT on vehicles and oil field/minning equipment that is heavily encrusted in grease, grime, oil and general fallout pollutants. Contains extra Solvents & Gloss Enhancers**

The secret of business is to know something that nobody else knows.

# Emulsifier PLUS

**55 GALLONS  
SALE \$139.00**

**BLEACH FRIENDLY** house wash for vinyl, aluminum and wood siding.

One drum pak of EMULSIFIER PLUS makes **55 GALLONS** of a Severe Duty Extract.

Contains a heavy concentration of 'bleach' friendly surfactants and solvents, 'buffered' heavy duty builders, 'quick rinse' agents and silicone based gloss enhancers.

Available Sizes:

55 Gallon Drum Pak #EMUP55 ~~\$152.00~~  
 30 Gallon Drum Pak #EMUP30 \$ 91.00  
 5 Gallon Drum Pak #EMUP5 \$ 50.00

**SHIPPING INCLUDED**

To determine which product is best suited for you visit our website at [www.envirospec.com](http://www.envirospec.com)

\*Contains Lorox LO surfactant

## When you have to penetrate an inch of mildew FIRST the easy answer is Emulsifier Plus!

An important part of our house wash detergent portfolio has focused on a method to combine 'sodium hypochlorite' (chlorine) with a detergent. Our customers need to do this in order to work through a heavy build-up of mold/mildew before they can get at other surface pollutants that bleach will not clean.

At EnviroSpec safety has always been equally as important as performance. At the onset of this project we first had to take into account that Sodium hypochlorite, the active ingredient in chlorine bleach, has a dangerous and sometimes explosive reaction with ammonia, drain cleaners and other acids so none of those ingredients could be considered as part of the blend.

It took well over a year of formulation and field testing before our product Emulsifier Plus was presented to the professional house washing industry as the one house wash product that can *do it all*. Since then Emulsifier Plus has been *our industry's #1 selling house wash detergent*.

**USE THIS PRODUCT** if you need to add a little bleach to the mix to help you penetrate down to other embedded surface pollutants. Contains Orange Peel Solvents and Gloss Enhancers

We won't have a society if we destroy the environment.

# Limonene

**55 GALLONS  
SALE \$149.00**

Citrus Solvent house wash for vinyl, aluminum and wood siding.

One drum pak of LIMONENE makes **55 GALLONS** of a Severe Duty Extract.

Contains a heavy concentration of butyl solvents, 'buffered' heavy duty builders, surfactants, 'quick rinse' agents and silicone based gloss enhancers.

Available Sizes:

55 Gallon Drum Pak #LIM55 ~~\$164.00~~  
 30 Gallon Drum Pak #LIM30 \$ 97.50  
 5 Gallon Drum Pak #LIM5 \$ 50.00

**SHIPPING INCLUDED**

To determine which product is best suited for you visit our website at [www.envirospec.com](http://www.envirospec.com)

## d'LIMONENE extracts...

*Don't just remove mildew - KILL IT!*

Long before it became front-page news, the environment was a *front-end* concern in the development stages of every product that we produced. While actively developing performance driven, environment friendly ways to conquer the tough cleaning jobs - others *were then and most still are today* - using antiquated 'hammer and chisel' technology.

As a result of our *roots* as professional mobile washers from the early 1970's, EnviroSpec is renowned for providing the industry's highest performing environment friendly products. At one time, as contractors ourselves, when nothing worked we had to sit down and figure out why. *We did* and today our customers are more profitable and more environment conscious because *we did*.

As homeowners continue to educate themselves in the field of exterior house washing they are now saying **NO** to the contractor who shows up to the job-site with nothing but a container of bleach.

**USE THIS PRODUCT on surfaces where there is a heavy build-up of mildew, exhaust carbons, acid rain and general fall-out pollutants are present. Contains Orange Peel Solvents and Gloss Enhancers**

Not enough chemical? Then you need an Allison Super Suds Sucker Injector

# PREVAIL

Use cold water with this house wash for vinyl, aluminum and wood siding.

One drum pak of VIPER makes **55 GALLONS** of a Severe Duty Extract.

**55 GALLONS  
SALE \$169.00**

Why 'mask' the problem by removing the surface mildew with bleach when you can KILL and clean harmful mildew root beds? Contains a heavy concentration of penetrating mildewcides.

Available Sizes:

55 to 110 Gallon Drum Pak	<b>#PREV55</b>	<del>\$182.00</del>
30 to 60 Gallon Drum Pak	<b>#PREV30</b>	\$119.58
5 to 10 Gallon Drum Pak	<b>#PREV5</b>	\$ 50.00

**SHIPPING INCLUDED**

To determine which product is best suited for your operation see the inside front cover for the explanation of this chart.

## DEEP CLEANING OF ROOFS WHEN YOU WANT TO KILL THE MILDEW ROOT BED

For most homeowners the beginning of spring brings with it a sense of growth and rebirth as the air turns warmer and the first flowers of the season begin to bloom. Outside the world takes on a renewed freshness as the ground sheds its winter coat. This is why spring has been an ideal time for doing a deep cleaning and more often than not it is the exterior of the house that is at the top of the list of projects. In the warmer climates the roof seems to always be the first priority.

Most will call a contractor to perform the roof cleaning service. More often than not, when they take on the job bleach is their cleaning product of choice. Unfortunately, bleach is nothing more than a quick, temporary fix to the problem and will only dissolve surface mildew and the mildew will reappear in a few short months.

Along with medium pressure between 800-1200 PSI, Prevail is the answer to penetrating and destroying the mildew root bed.

To really extend the life of the job the contractor should also consider applying a coat of FINAL-PHAZE Sealer.

**USE THIS PRODUCT for removing and destroying the mildew root bed on roofs. Bleach Free!**

# POWER HOUSE

Use cold water with this **house wash** for vinyl, aluminum and wood siding.

One drum pak of VIPER makes **55 GALLONS** of a Severe Duty Extract.

**55 GALLONS  
SALE \$149.00**

Contains a heavy concentration of butyl solvents, 'buffered' heavy duty builders, surfactants, 'quick rinse' agents and silicone based gloss enhancers.

Available Sizes:

55 to 110 Gallon Drum Pak	#PH55	<del>\$165.00</del>
30 to 60 Gallon Drum Pak	#PH30	\$109.76
5 to 10 Gallon Drum Pak	#PH5	\$ 50.00

**SHIPPING INCLUDED**

To determine which product is best suited for your operation see the inside front cover for the explanation of this chart.

\*Surfactant base for cold water equipment

## FORMULATED TO WORK WITH COLD WATER EQUIPMENT

EnviroSpec blends the commitment of its lineage with *technology, performance and safety* and a promise that you will never use a product that will provide you with a more consistent satisfactory result.

Like every aspect of EnviroSpec innovation, Power House sets the stage for unparalleled performance while leaving behind a clean, safe world that everyone will enjoy tomorrow.

Hard water requires high-yield, performance detergents for industrial power washing. While most products in the industry contain only 2 to 4 builders and surfactants - EnviroSpec products will contain as many as 12. All of which will target specific cleaning function.

Typically hot water is the preferred method of applying and rinsing cleaning chemicals from the surface. However, you will find POWER HOUSE to work equally as well in a cold water environment. This is especially important in States like Florida, Georgia & Texas where it is not uncommon to see surface temperatures reach 130 degrees and even higher. Since heat generates alkalinity you can see how *high* ambient temperatures will allow Power House to perform as well as if you were using a hot water system.

**USE THIS PRODUCT** if you use cold water equipment for medium duty cleaning. Contains special cold water friendly surfactants and Gloss Enhancers

according to

**DAN GALVIN**

East Coast Power Wash

## PLEX-MASTER

**I have made hundreds of thousands of dollars off of this product alone!**

On a typical 2,000 s/f house this is about a 20 minute process. Simply apply PlexMaster through your downstream injector and rinse before PlexMaster dries. We recommend doing the house in 4-6 sections. This product goes on over windows and rinses freely.

Most people want their house washed before they pay the window cleaner. When you use PlexMaster a window cleaner is not necessary because in addition to leaving a protective barrier that will last up to one year PlexMaster *also* leaves the windows 'sparkling clean.'

When you are done put them on your calendar to call next year for a follow-up PlexMaster treatment that you will charge \$149.95 for another 20 minutes work!

## CHEM SHOOTERS

These **Ultra High Impact Nozzles** can throw chemical over 3-stories high!

Use with any machine that has a chemical injector.

Works on power washers from 1.5 to 15 GPM

#5555 ~~\$39.95~~ **\$28.27**

## Mildew Retardant & Surface Protector with Gloss Enhancers Specifically formulated for the Exterior House Washing Industry

Plex-Master is a blend of silicone & silicone hardener, polymer and mildew retardant that will enhance the appearance of Vinyl and Aluminum Siding, Painted Wood and Metal surfaces after cleaning. Plex-Master is also an excellent product that will eliminate or substantially reduce the reformation of mold and mildew on all surfaces.

Plex-Master provides a distinctive edge that will separate the Professional Contract Cleaner from the "Splash 'N Dash" house washer. For just pennies per job the contract cleaner can provide the homeowner with a 'cleaner clean' and a 'brighter shine' that will last much longer than that of their closest competitor.

When you explain the advantages of using environment friendly products that will leave the soil exactly the way you found it and the added benefit of the Plex-Master application you have virtually left your competitors in the 'dust (dirt)'. With the addition of this product to your sales presentation you will be washing houses from \$400.00 and up even though your competitor quoted them for \$79.95. This is a fact that has been proven time and time again.

Mildew, which will form on virtually anything, will be much easier to remove when the surface has been coated with Plex-Master. In most cases the homeowner will be able to keep the surface looking alive and free of mildew for up to 1-year with an occasional rinse down using a standard garden hose. Another great feature of Plex-Master is that once applied and rinsed before it has been allowed to dry, the windows will be 'squeaky' clean.

Plex-Master - the product that separates you from everyone else!

# POWER STROKE

Specifically formulated for flat surface concrete cleaning

One drum pak of VIPER makes **55 GALLONS** of a Severe Duty Extract.

**55 GALLONS  
SALE \$279.00**

Power Stroke is a blend of anionic and nonionic surfactants, high performance builders, brightening agents, coupling agents and solvents.

Available Sizes:

55 to 110 Gallon Drum Pak	<b>#PS55</b>	<del>\$298.00</del>
30 to 60 Gallon Drum Pak	<b>#PS30</b>	\$188.00
5 to 10 Gallon Drum Pak	<b>#PS5</b>	\$ 50.00

**SHIPPING INCLUDED**

To determine which product is best suited for your operation see the inside front cover for the explanation of this chart.

\*Surfactant base for cold water equipment

## The highest non-caustic concrete detergent concentration available in the industry.

Power Stroke has been specifically formulated for heavy-duty oil/grease removal for untreated concrete. Unlike the caustics typically used in this industry Power Stroke is much more user and surface friendly when it comes to over spray.

You will find Power Stroke cleans much 'quicker' than caustics and acids due to it's excellent wetting, rinsing and emulsification properties and SuperFlo Polymer Complex System.

The general rule of thumb in detergent formulation is as follows: Approximately 1 gallon of water will hold approximately 1 pound of powder before separation begins. If your product begins to separate using this calculation, more often than not, your product has been camouflaged with what is known in our industry as fillers. Fillers provide little to no value to the products performance. They are used primarily to add weight and increase the bottom line profit for the manufacturer. A typical filler would be Soda Ash. Using the 1 pound per 1 gallon rule you can see the potency of Power Stroke when you consider that we are able to thoroughly dissolve up to 2.5 pounds of Power Stroke into 1 gallon of water without separation. To our knowledge - no other company can make this claim. The advantage of these concentration levels are two fold: First, the contractor is now able to clean surfaces that normally require the use of caustic cleaners and second, the contractor can work faster and safer which increases their bottom line.

A professional is one who takes the most time performing his trade.

# RESTORE

## Simply Put - Awesome! Brings Old Wood Back to NEW

Cedar Shakes & Unpainted Wood Surfaces such as Decks - Stripping Antique Furniture - Cleaning Tile Grout - Laundry Presoak & Bleach Replacement - Carpet Cleaning ... *you just won't find anything better than RESTORE!*

For Cedar Shakes and unpainted Wood Decks simply spray RESTORE on, wait 20 to 30 minutes, and rinse off. You will not believe your eyes! No more harsh bleach or surface and vegetation aggressive chemicals. Totally removes black mold and mildew build-up on shakes, regardless of how long it has been there.

RESTORE works by means of oxygenation and should not be mixed with water until the operator is ready to perform the job. Once RESTORE is in solution, the operator will have approximately 1-2 hours before the product has exhausted itself. Mix up enough so that you will be able to get the product on the surface within this time. Mix approximately 1/2 to 1 pound of RESTORE into 1 gallon of water and stir several turns. Complete solubility is not necessary since RESTORE will go into solution on it's own through the oxygenation process. Using a ShurFlo Pump place the pick-up line in the solution and spray product directly onto the surface. When product has removed pollutant, rinse with low pressure, 500 - 1000 PSI is all that is required. When using this product on pressure treated wood we recommend the 1/2 lb to 1 gallon of water ratio and rinsing with no more than 500 PSI. Higher dilutions and pressures will cause the surface to 'fuzz' up. When this happens it is generally a temporary situation that will correct itself in a couple of days. Do not use a pump-up sprayer to apply Restore since this product builds pressure when added to water and will over pressurize the sprayer which could result in an injury should the sprayer erupt.

This product will provide unbelievable results. You will be able to produce twice the results in 1/3 the time and with little to no mess. You'll never use harsh chlorine cleaners or solvent based strippers again.

5 Gallon Kit order #RES5 \$50.00

55 Gallon Kit order #RES55 \$97.00

**SHIPPING INCLUDED**

# FIBER-X

## The Purest Form of Oxygenated Cleaners & the only one with d'Limonene Solvents

We are widely regarded as one of the leading global experts in the development and implementation of Green cleaning solutions and the invention Fiber-X, our latest wood rejuvenator, is a good example why most experts turn to EnviroSpec to help them with their toughest cleaning projects.

**Fiber-X** is a blend of oxygenators, orange peel solvents and cross-linked surfactants that break the degenerative cycle of drying & decaying wood fibers that begins when environmental factors come into play. When used as directed Fiber-X breaks this cycle by allowing the wood to breath more efficiently. The orange peel solvents help to penetrate and eliminate any existing wood destroying bacteria by weakening it's cell wall. When the cell wall is weakened or disrupted, it can no longer function. This forces the cell to burst due to osmotic effects (water rushing into the cell). At this point wood fibers can recapture their shape while continuing to exist in a harsh outdoor environment.

For best results place 1/2 to 3/4 pound of product into a clean 5 gallon pail filled with slightly warm water. Pour in the product and stir 8-10 times. At this point approximately 80% of the powder will still be at the bottom of the pail. Apply by placing the chemical pick-up line from a 12V or 115V SHURflo or Flojet pump at the bottom of the pail and begin to drench the wood surface. By the time you have completely drained the pail all of the product will have been solubilized through its own oxygenation process. Allow to stand for approximately 15-20 minutes and rinse.

In some cases, especially with pressure treated wood, the surface will 'fuzz.' This will normally return to its natural state in a few days. Occasionally a light sanding may be required. It is because of this that we recommend a 1/2 pound per gallon of warm water for pressure treated wood.

5 Gallon Kit order #FIB5 \$50.00

55 Gallon Kit order #FIB55 \$99.60

**SHIPPING INCLUDED**

# DECK & SHAKE BRIGHTENER

High pH 'detergent beds' especially sodium or potassium hydroxide, shorten the life of wood.

**DECKS MUST BE NEUTRALIZED AFTER CLEANING!**

DSB (Deck & Shake Brightener) is a product that must be applied to a wooden deck in order to neutralize and brighten the wood after being cleaned.

Quite often contractors who are just starting out in the deck cleaning business will use harsh sodium or potassium hydroxide base cleaners to perform this service. Although the hydroxide family of products are extremely effective in the drain cleaning and exhaust hood cleaning industrys they are not recommended for wood cleaning. When used they immediately start breaking down wood fibers.

The ideal deck cleaning system would be cleaning the deck first with our product Restore or Fiber-X and then applying a coat of Deck & Shake Brightener.

The Restore and Fiber-X will be sprayed on and allowed to sit for approximately 20 minutes. Reapply if necessary. Rinse and apply a coat of DSB and allow to stand for another 20 minutes.

The DSB process will return the wood to a neutral pH as well as begin a brightening process.

5-Gallon Kit order #DSB5 \$50.00

55-Gallon Kit order #DSB55 \$86.00

**SHIPPING INCLUDED**

Professionals are expensive but not near as expensive as an amateur.

# PERFORMANCE BUILDER

Add one gallon to 55-gallons of liquid sodium or potassium hydroxide and you have just formulated a...  
***'super hot' exhaust hood cleaner.***

Since most exhaust hood cleaners are nothing more than liquid sodium or potassium hydroxide that contains a high pH stable surfactant and a lot of water why not make your own and save hundreds. Simply add 1-Gallon of Performance Builder to 55 gallons of liquid potassium or sodium hydroxide for the most cost effective exhaust hood cleaner in the industry. Wear protective goggles and clothing when mixing.

5-gallon pail. Add 1 gallon to each 55 gallon drum of either hydroxides above. Part #PBC5 \$98.77 SHIPPING INCLUDED

To determine which product is best suited for your operation see the inside front cover for the explanation of this chart.

\*Special high pH Coupling Surfactants

**WAIT! Don't buy any more caustic exhaust hood cleaners. If you do you are wasting your money!**

Exhaust hood cleaners are by far the easiest products in the industry to make. They are made by blending 1-gallon of surfactant with 55 gallons of liquid potassium or sodium hydroxide that can be purchased from your local raw chemical distributor.

Since most of the products on the market are diluted from 50-70% water you can see why when you make your own cleaner you will be getting a product that is 2-3 times the concentration level that you are presently purchasing.

Because of the aggressiveness of these two raw materials there are only a couple of surfactants that are stable in the solution for any period of time. Because of the cost of this family of surfactants many manufacturers rely on a 9-mole surfactant such as that found in typical detergents. The trouble here is that by the time you get the product the surfactant has been overwhelmed by the hydroxide to a point where it has exhausted it's ability to perform. Performance Builder is a blend of high yield, caustic stable surfactants & emulsifiers that will hold up indefinitely and help to 'crank up' the horsepower of the raw material.

Next time you decide to buy a caustic cleaner order up a gallon of Performance Builder Plus. Then look in your yellow pages for your local chemical supplier. If you can't find one call Univar at 800-233-0633 or <http://www.univarusa.com> for their location nearest you.

Cleaning Chemicals from the future with Today's Environment in mind!

# HOOD-PRO

The Industry's **ONLY NON-CAUSTIC** restaurant exhaust hood cleaner

One drum pak of HOOD PRO makes **55 GALLONS** of a heavy duty concentrate .

**55 GALLONS  
SALE \$249.00**

Solvent based product specifically formulated to dissolve baked on animal, bone and butterfats commonly found in the restaurant industry.

Available Sizes:

**Today more contractors are using Hood Pro as their First Choice Cleaner over the strongest caustics on the market!**

Until now Professionals have always had to rely on corrosives for the real tough hood cleaning jobs but not anymore! Hood Pro has revolutionized the industry by providing the contractor with a product that cleans as quick and effective as the 'hottest' hydroxide products in the industry while leaving him completely 'scare free' and with hair still on his arms when the job is complete. Only a Professional Exhaust Hood Contractor can fully appreciate that statement.

EnviroSpec's HOOD PRO product is the non-caustic workhorse of the professional exhaust hood cleaning industry. Known for it's consistent high performance, this powerful grease dissolving formula is being used more and more by the professionals who know and understand the disadvantages of using sodium or potassium hydroxide products. The "power" from Hood-Pro comes mainly from a wide variety of special 'ion' charged surfactants not commonly found in the detergent formulary industry. Coupled with a unique "builder" base, HOOD-PRO exhibits unbelievable pH stability and excellent foaming characteristics.

HOOD PRO offers excellent and economical grease dissolving, foaming, wetting, emulsification and biodegradability needed for today's specialized contractor. HOOD PRO is 100% active and highly concentrated. HOOD PRO will respond to your most difficult cleaning project with ease and provide you with an environment which is much safer to humans and less damaging to the surface.
