

# Products WASHING

## Call and Listen

to what our customers have to say!

according to Dan Galvin

*this is the icing on the cake!*

Read the article about Dan in this issue and see how he has turned an ordinary occasional house wash into a million dollar business using *the invisible shield sealer...*

### PLEX-MASTER

Surface with  
**PLEX-MASTER**

*& without*

On a typical 2,000 s/f house this is about a 20 minute process. Simply apply PlexMaster through your down-stream injector and rinse off immediately before PlexMaster dries. We recommend doing the house in 4-6 sections. This product goes on over windows and rinses freely.

Most people want their house washed before they pay the Window Cleaner. When you use PlexMaster a window cleaner is not necessary because in addition to PlexMaster leaving a protective barrier that will last up to one year it *also* leaves the windows 'sparkling clean.'

When you are done put them on your calendar to call next year for the follow-up re-seal that you will charge \$149.95 for another 20 minutes work!
