

Giving back is what we love to do best so here are...

**THE INDUSTRY'S #1 SELLING TRUCK WASHES**

**PRODIGY**

How good is it? We have one customer who purchases 5,500 drum packs a year!

<b>CONTAINS SUPER GLOSS ENHANCERS</b>	5 GAL #PRO5	\$15.00
	20 GAL #PRO20	\$40.00
	55 GAL #PRO55	\$99.95

Back in the mid to late 70's when we were Mobile WasherS ourselves we started looking for a way to formulate a 'high solids' detergent that would be so concentrated that one drum would = 3 drums. The reasoning behind this need came about as a result of a company whose trucks we were washing who had terminas all over New England and New York. We would send a truck out for 2-3 weeks and had to have enough chemical to last that long. Every trip resulted in 'overweight' fines as we passed through the DOT weigh stations until such time when the detergent had been used to a point when we fell below the weight limits. This would not have been such an issue had it not been for the necessity to carry water to locations who did not have an outside water source or had turned their water off due to freezing weather.

The general rule of thumb in detergent chemistry is as follows. With a quality detergent anything over one pound of 'solids' (powder) that is mixed with one gallon of water the product will begin fall apart. At that point surfactants tend to float to the top and builders tend to fall to the bottom and neither will stay in solution. So we needed a way to reduce the number of 55 gallon drums that we carried with each trip. We needed a way to mix 3 pounds of 'solids' with one gallon of water and have it stay in solution. A lot of research, time and what we like to call 'black magic' has given us that product. It is the 'base' of many product that we produce. It is Prodigy and the 'black magic' that makes Prodigy the #1 selling Truck Wash is our very own 'SuperFlo Polymer' (ZP1). It gives us the ability to do what no other detergent manufacturer has been a ble to do and that is to make the industry's highest detergent concentrate.

Prodigy is, by far the highest non-caustic detergent concentrate available in the industry. Prodigy exhibits excellent wetting, chelating, rinsing, and emulsification properties due to its high concentration of our SuperFlo Polymer (ZP1) Complex System. How good is Prodigy? We have one customer alone that purchases 420 - 55 gallon drum packs every 4-6 weeks.

**BOND BREAKER**

Contains **STATIX™ & ZP1**

**Specifically formulated to eliminate 'STATIC CLING' ON VEHICLE SURFACES**

5 GAL #BB5	\$25.00
20 GAL #BB20	\$75.00
55 GAL #BB55	\$159.95

Bond Breaker is the most incredible product of its kind in the industry. Formulatted from the ZP1-Prodigy base Bond Breaker removes more 'road film' than any other product on the market. Our surfactant **STATIX™** breaks the magnetic field that is created on the vehicle surface as it 'cuts' through the wind. It results in the removal of up to 94-99% of all film from the surface without ever having to touch the surface with a brush or any other type of mechanical agitation.

**Our Favorite CHARITIES**

EnviroSpec donates 100% of the after tax profits from our Chemical Sales to the Shriner's Hospital for Children in Tampa, FL. and to Suzie's Friends No-Kill Animal Shelter/Sanctuary located in Homerville, GA.

In 2002 John & Shelley Allison, owners of EnviroSpec, traveled the highways and by-ways of their local communities and began picking up and helping abandoned, hungry and sick animals. That initial 'labor of love' has grown to become a major commitment in their lives.

In the last two years alone they have trapped and spayed/neutered over 500 cats & dogs. On the weekends they take animals to PetsMart where they find homes for the ones who have been or can be socialized. Those who don't find homes are returned to their colonies and every morning at 6:15 and every afternoon at 4:45, 7-days a week, John & Shelley head out in their golf cart, better known as 'Suzie's Friends Meals on Wheels', to feed and monitor the colonies.

Back at their No-Kill Shelter/Sanctuary in Homerville the employees of EnviroSpec start and end their day by providing the animals there with the same attention and care as those in the colonies receive.

Please consider helping a Shelter or Rescue in your area. It's a great feeling knowing that you have helped an abandoned, helpless & hungry animal who otherwise would never have had a chance. And never forget the tireless work of helping children in communities throughout the Nation that is silently performed by Shriners everywhere.

And please Spay/Neuter your pets. Remember, an unborn animal will never die a lonely death in an animal shelter.

## Severe Duty Performance Pumps

THE ONLY PUMP  
IN THE WORLD WITH A

**2-YEAR  
'BUMPER to BUMPER'  
WARRANTY**

**Our... TS4035**  
is a direct replacement for:  
A-R: **RW15**  
COMET: **RW4035S**  
GENERAL: **TS1511**  
Just 'zip their's off' and  
'zip ours on!'

**If anything happens in  
the first two years we will  
FIX IT FREE!**

**Our... TS5635**  
is a direct replacement for:  
A-R: **RW21**  
CAT: **5CP5140**  
COMET: **RW5535S**  
GENERAL: **TS2021**  
PRESSURE PRO: **HP5535**  
Just 'zip their's off' and  
'zip ours on!'

**JUST HOW GOOD IS AN**

**Allison**  
Severe Duty Performance Pump?

EnviroSpec will provide a full 2-year Bumper to Bumper warranty on these two Allison Severe Duty Pumps. Just return it to us pre-paid and a certified systems technician will replace any worn parts such as check valves, packings, oil seals or anything else that is showing signs of wear and the possibility of 'downtime.' We will also perform a 42-Point Inspection, clean and change the oil and make sure your pump comes back to you in 'like new' mechanical condition.

Our job and promise is to keep your equipment running with little to no down time and we do that by providing our customers with a certified pump inspection and service program that you can't get anywhere else.

**SPECIAL NOTE:** Just because the GAS HP rating may be higher than the engine you have these pumps will still work with your engine just by 'not adjusting' the pressure to the pumps advertised maximum pressure. For example: If you need a lot of volume and not much pressure you could run the 10.0 GPM Pump with a 13 HP engine but only setting the pressure to 1,450 PSI or a 5.6 GPM Pump on that same engine could produce 2,500 PSI. Call with questions - it really is easy to do.

Allison Severe Duty Pumps will run harder & last longer than any pump in the industry and to show you just how confident we are that our Severe Duty pumps are better all you have to do is look at this warranty.

- Exclusive 2-year 'bumper to bumper' warranty with renewable service plans.
- Heavy Duty Reinforced Brass Heads with External and Internal Bracing.
- Large Diameter Stainless Steel Valve Caps with Increased Thread Depth.
- Oversized Bearings for greater belt 'side-loads' means longer pump back-end life.
- Heavy Connecting Rod Assemblies with Guide Pins for Perfect Cap Alignment.
- 'State of the Art' Packing Design means longer, uninterrupted run-times.
- Cool-run Technology and Extra Capacity Oil Sumps promote longevity.

## PREMIUM 'HIGH YIELD' TRUCK WASH WITH LAUROX LO

**55 GALLONS**  
**\$148.00**

High Foaming Blend of Emulsifiers, Solvents & 'Quick Rinse' Agents. It is loaded with Water Softeners, Static Reducing Additives & Gloss Enhancers.

FORMULATION OBJECTIVE: **SPEED IN CLEANING AND RINSING**

**A ZP1- PRODIGY BASE** - BLUE LIGHTENING is the result of blending the very best 'job specific' ingredients that cover every aspect of a cleaning task that will insure the 'perfect clean.' We wanted speed - which meant we had to get the product on the surface - have it do it's job - and get it off the surface quickly.

We added a large amount of LAUROX LO which quickly wets the surface while at the same time generates a substantial 'foam bed' that keeps the soil suspended in the liquid so that it does not redeposit itself on the surface during the cleaning process.

It is formulated with 'top shelf builders.' Not one 'builder' but several are utilized and each has a specific purpose. Some provide alkalinity to aid in cleaning & keeping emulsified soil in suspension. Others emulsify oil and grease and overcome problems associated with water hardness.

BLUE LIGHTENING has a generous amount of SuperFlo Polymer. It is this product that has placed EnviroSpec as the leader in Gloss Enhancing detergent chemistry.

BLUE LIGHTENING can be used in virtually every type of cleaning environment. Truck Washing where heavy build-ups of exhaust carbon and 'road static' are present, House Washing, Brick and Masonry Cleaning, Car Washing, Wood Surfaces & Engine Degreasing are just a few of the cleaning tasks that are easily handled by Blue Lightening.

# LIMONENE

55 GALLONS  
**\$99.95**

Contains Pure d'Limonene Solvent  
**Exterior House Wash**  
**Orange Peel Solvents and**  
**High Yield Gloss Enhancers**

In recent years the evolution of the environment conscious homeowners are becoming much more educated in the field of exterior house washing. They are saying 'no-more' to the contractors who are using the unfriendly bleach and harsh detergents such as 'caustic' that has been so popular for so long simply because it is inexpensive to purchase and, until now, there have been few alternatives for removing mold and mildew.

The solvency in Limonene originates from citrus by-products such as orange and lime peels. These solvents, coupled with specific pH balanced surfactants and builders, provide the contractor with an excellent product that quickly removes carbonaceous pollutants such as mold/mildew, gutter streaks, oil and grease and other fallout pollutants commonly found in the house washing industry. For the first time ever they are experiencing safe and effective surface chemistry that deals with wood, aluminum and vinyl siding and the pollutants common to those surfaces.

Limonene has excellent hydrotopping characteristics through the use of a unique dispersant complex which is not commonly found in detergent chemistry. This complex, known as SuperFlo Polymer, has been developed by EnviroSpec and is found throughout our detergent formulary because of its tremendous ability to add horsepower to virtually every type of alkali detergent products while remaining much more gentle than the alternatives. You will find that Limonene has superior rinsing qualities in both hot and cold water environments which results in cleaning faster and safer.

5 GAL #LIM5 \$15.00  
20 GAL #LIM20 \$45.00  
55 GAL #LIM55 \$99.95

Just how good is Limonene?  
This is a before and after sent to us  
by one of our customers.

## HOW MANY TIMES HAVE YOU BEEN 'EATEN ALIVE' BY CAUSTICS?

The Only Non-Caustic Exhaust Hood Cleaner in the Industry!

55 GALLONS  
**\$199.95**

# HOOD PRO

Specifically Formulated For  
**RESTAURANT EXHAUST HOOD CLEANING**

10 years ago they were sceptical. Today more contractors are using Hood Pro as their First Choice over the strongest Caustics on the market!

Until now Professionals have always had to rely on corrosives for the real tough hood cleaning jobs but not anymore! Hood Pro has revolutionized the industry by providing the contractor with a product that cleans as quick and effective as the 'hottest' hydroxide products in the industry while leaving him/her completely 'scar free' and with hair still on his arms when the job is complete. Only a Professional Exhaust Hood Contractor can fully appreciate that statement.

EnviroSpec's HOOD PRO product is the non-caustic workhorse of the professional exhaust hood cleaning industry. Known for it's consistent high performance, this powerful grease dissolving formula is being used more and more by the professionals who know and understand the disadvantages of using sodium or potassium hydroxide products. The "power" from Hood-Pro comes mainly from a wide variety of special 'ion' charged surfactants not commonly found in the detergent formulary industry. Coupled with a unique "builder" base, HOOD-PRO exhibits unbelievable pH stability and excellent foaming characteristics.

HOOD PRO offers excellent and economical grease dissolving, foaming, wetting, emulsification and biodegradability needed for today's specialized contractor. HOOD PRO is 100% active and highly concentrated. For example; the 'hottest' hydroxide products consist mainly of 50 pounds of powder to 50 gallons of water. The finished HOOD-PRO product will yield 55 gallons which is compounded from 80 pounds of the finest builders and performance driven surfactants in the industry.

HOOD PRO will respond to your most difficult cleaning project with ease and provide you with an environment which is much safer to humans and less damaging to the surface.

## BIO-GREEN

### EnviroSpec's Answer to a true Environment Friendly Detergent

Until now - most 'so called' environment friendly cleaners have been little more than 'watered down' products that have a name that sounds environment friendly.

Choosing environmentally friendly cleaning products and eliminating toxic ones has always been what EnviroSpec is all about and Bio-Green is the latest addition to our arsenal of environment friendly products.

Bio-Green, a variation of the Limonene family, is the answer to everyone's concerns about Earth Friendly products that really can clean.

Bio-Green is truly a workhorse in the industrial and institutional detergent industry. Known for consistency, EnviroSpec, has developed this product to be the answer to all of the concerns in the vehicle cleaning and house washing industry as well as other projects requiring special surface active properties.

Bio-Green offers excellent & detergency, foaming, wetting, emulsification and biodegradability needed for today's specialized high performance cleaning products. It has excellent foaming characteristics which will provide the user with the necessary visual requirements to determine concentration levels on the surface being cleaned. Yes, Bio-Green can respond to your toughest needs, whether it's a medium duty truck or house wash job or a 'down and dirty' forklift with years of grease and grime.

And it can do all this and still be gentle on the world we live in.

## EMULSIFIER PLUS

The Industry's #1 Selling House Wash

**55 GALLONS**  
**\$99.95**

### BLEACH FRIENDLY DETERGENT WITH GLOSS ENHANCERS

**For the very best of all worlds start with 4 gallons of Emulsifier Plus to 1 Gallon of Bleach**

Emulsifier Plus - is one of the Original House Wash Formulas developed by EnviroSpec. Our dilemma at the onset of its development stages were: we all know bleach works better than anything for killing and cleaning mold & mildew but we also knew that bleach does absolutely nothing about cleaning carbonaceous pollutants such as exhaust carbons, dirt, grease and grime. The task was - how to do both at the same time!

Bleach, for the most part, does not like to be blended with other chemical products and many of the chemical products found in the professional mobile wash industry can create a serious explosive situation when mixed with sodium hypochlorite (bleach). Emulsifier Plus, on the other hand, is the answer to both the safety issue as well as the cleaning problem. These two products work extremely well together when blended and applied in accordance with the EnviroSpec instructions. Have the best of both worlds - Clean and Kill Mildew and Clean All the other Pollutants typically found on an exterior substrate. And do it all in one pass!

Emulsifier Plus has a pH of around 11.8 to 12.0 in a 1% solution. This unique blend of Surfactants & Builders has been specifically formulated for the House Wash Industry as a stand alone detergent or a detergent additive to be blended together with Bleach.

Emulsifier Plus works great on removing heavy build-ups of grease, grime and general fallout pollutants generally found in high traffic areas and exhibits excellent wetting, chelating, rinsing, and emulsification properties. Its ability to hold pollutants in suspension during the wash process makes it an ideal product when using either hot or cold water pressure washers.
