Allison "Super Suds Sucker"

The Original Super Suds Sucker™ is back!

\$43.90

PART #	DESCRIPTION	PRICE
1964	SUPER SUDS SUCKER INJECTOR	\$ 89.95

For those of you to new or young to remember...

...a few years back we designed a chemical injector that would just about suck the bottom out of the pail. Not only that - we were able to put as much as 500' of hose on the machine and still suck as much chemical as most injectors equipped with only 50' of hose.

Here are the two primary advantages of owning a **Super Suds Sucker** and when you think about it - what else is there?

Longevity - This could be the last injector you will ever buy. Most of the ones we built 10 years ago are still 'sucking' strong.

Product to Surface - When we first came out with this product we told people then that "if you cant get the product to the surface you may as well stay at home" - the same holds true today. With a **Super Suds Sucker** you will definitely get the product to the surface.

What do most people say when they first try it?

NOW THIS SUCKS!

20% DRAW RATE

Allison "Suds Sucker"

- Up to 20% draw rate
- Machined Brass
- Ceramic Ball for harsh chemicals & chlorine
- 316 Stainless Nozzle
- Rated to 5,000 PSI
