DISTRIBUTORS INTRO TO OIL-DRI PRODUCTS...

Oil-Dri® is a proud supplier of a full line of absorbent products with a brand that is trusted and recognized coast-to-coast.

Oil-Dri offers top quality granular absorbents as well as a complete line of oil-only, haz-mat and universal synthetic absorbents including pads, rolls, socks, spill kits and more. We encourage you to take advantage of

our entire family of absorbent products and

grow your offering to your customer base. We look forward to supplying all of your absorbent needs. Here are a few of the benefits that you will enjoy as an Oil-Dri distributor:

◆ **COST SAVINGS:** Our goal is to provide cost reduction opportunities that will meet the cross-functional demands of your organization as well as your customers. Our sales force will be happy to schedule joint end-user sales calls to provide product education and training that can reduce your line items and increase your bottom line.

◆ **COMMITMENT:** Oil-Dri Corporation of America is committed to the continued development and distribution of sorbent products for your markets. We look forward to providing you with the same commitment to distribution that has made us successful since 1941.

◆ **SUPPORT:** Our Sales & Marketing staff can supply you with the materials needed to support your sales efforts as a distributor of Oil-Dri products.

Thank you for choosing Oil-Dri® as your preferred supplier of absorbents.

GRANULAR CLAY, CELLULOSE...

PREMIUM CLAY ABSORBENTS OFFER SUPERIOR RETENTION AND HOLD FLUIDS IN.

Oil-Dri® granular absorbents contain trace amounts of naturally occurring crystalline silica – a level far below the OSHA Permissible Exposure Limit and the ACGIH Threshold Limit Value. All products are thoroughly tested and completely safe for their intended uses.

For use on oils, coolants, grease, water, and other spills. Oil-Dri® has several manufacturing facilities (see previous page). When selecting an absorbent that is best for you, call for the most economical shipping logistics.

Disclaimer: The above information is provided as a guide only. No claims or warranties are expressed or implied as to the absolute accuracy of the data supplied. In all cases it is assumed chemicals in question are at ambient temperatures and pressure and are used in basic state, not in combination or mixtures. Small test sampling by users is always recommended to ensure safe application.
Disposal: Unused polypropylene materials can be subject to normal disposal and are suitable for landfills. Disposal procedures for saturated material are based on fluids absorbed. Please comply with all local, state and federal environmental regulations when disposing of this product.
