# Soap For Hope

"touching a life one bubble at a time"

On behalf of John and Shelley Allison, the EnviroSpec team,  
and all of our little *shelter babies* we would like to take a moment to say...

THANK YOU! THANK YOU! THANK YOU!

## WHAT IS SOAP FOR HOPE?

When you purchase Chemicals from EnviroSpec you have helped to put a smile on the face of a child who has a serious illness or care for an abused, sick and hungry animal with no home.

**ENVIROSPEC DONATES 100% OF THE AFTER TAX PROFITS**  
from ALL Chemical Sales to the charities listed below .

## Our Soap for Hope Charities

Meet Suzie, who inspired John & Shelley Allison's latest project, Suzie's Friends. Suzie lived on her own with a dislocated leg for over 2 years until she was rescued by John and Shelley. When they found her it was too late to save the leg but just in time to make sure that the rest of Suzie's life was a little easier than her first 3 years. When once she was dragging her leg trying to find something to eat or a warm place out of the rain and cold and living every moment of her life in pain, Suzie now lives the life that every animal dreams of.

Won't you please help a stray?

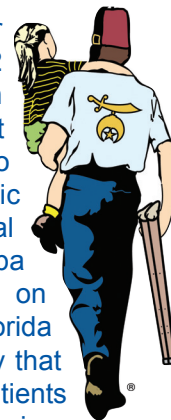

*To Few do.*

Suzie's  
friends

- **Suzie's Friends, Inc.** in Homerville, Georgia

The mission of Suzie's Friends is to provide a special no-kill, no-cage Sanctuary in Homerville, Georgia where the hungry are fed, the homeless are sheltered, and the abused and abandoned are provided care and we do this in a community whose governments spend nothing on caring for these animals. Suzie's Friends is for both Fidos and Felines alike who are less fortunate than other pets. No, the pictures that we see are not of "Princess" on a pillow with a diamond studded collar. Our little friends are wandering the streets looking for something to eat, or lying in a ditch on the side of the road starving to death and sick as a result of abuse and neglect. Since we get little in the way of financial help it is your purchases that keep them alive.

For your Full-Line Chemical Catalog with 55 Gallon Kits visit our Website at <http://www.envirospec.com>  
or Call 1-800-346-4876 and we will send you one.

<http://suziesfriends.org>

In 1972, with \$65.00 in his pocket, John Allison started a Mobile Wash business and in 1976, after buying detergents from every Tom, Dick & Harry in the industry, John realized that if he were going to stay in the Mobile Wash business he had better learn how to manufacture his own cleaning chemicals. He did just that and today...

...EnviroSpec Cleaning Chemicals are the most widely recognized products in the Professional Mobile Wash Industry.

Now that all of these fabulous products have been invented John and his wife Shelley still work in the business 50-60 hours a week and in their spare time they will most likely be found cleaning 'litter pans' or washing dogs at the shelter or you may even see them pass you by with a load of dog & cat food heading for a shelter somewhere else who needs some help.

One thing you can be sure of -  
you won't find them on vacation.

*Please try our products.*

This is how we feed, shelter & doctor our shelter animals and help other communities throughout the country take care of theirs.

We are not asking for something for nothing.

We just want a chance to earn your trust in our products.

We manufacture the very best detergents in the country and if you are not completely satisfied we will refund your money.

That's how sure we are that you will be 100% satisfied with EnviroSpec Job Matched Cleaning Chemicals.

We are not even asking for all your business.

We would like to have it all but we will be satisfied with any little bit you can send our way.

We are not rich folks nor do we have any aspirations to achieve that status. We just want to do as much as we can for all those who are less fortunate and having a tough time in life

There is a 'pile' of 'strays' out there. You probably passed a dozen or so on your way to work today.
