Allison BURNER DIAGNOSTICS

are available on 8 & 10 GPM units only at a charge of \$250.00

These are the Industry's Best Pressure Washer Values and here is why...

We all use the same engines, pumps, unloaders, generators, burners, nozzles,
hoses, lances, guns, flow switches, pressure switches, filters, burner nozzles,
safety valves, belts, pulleys, water filters, etc.

So - what is left? The Paint? The Frame?

Really - the only thing that is different is that we use the Best of the above!

Plus - we just don't need to make as much as they do - nowhere near as much!

Systems Include:

- Featuring the New 2012 Vanguard, Honda & Kohler Engines
- Tri-Plex pump with ceramic coated pistons, extra large oil-bath and oversized 'full-load' bearings
- The New Allison Quantum-Z zero pressure in by-pass unloader - Super Soft Touch
- Safety pressure relief system that by-passes over pressurized water
- Premium flow or pressure switch that controls burner firing sequence
- Premium Series Beckett Burner equipped with Beckett's precise fuel delivery management system
- Schedule 80 vertical dual-pass coil system
- Marine grade battery compartment with cover for added protection & battery life
- Oversized fuel & gas tanks
- 4-each premium high pressure quick connect nozzles and 1-each premium quick connect soap nozzle
- Injector, Hose, Gun & Lance sold separately
