WE ARE ONLY SELLING 10 AT THIS PRICE

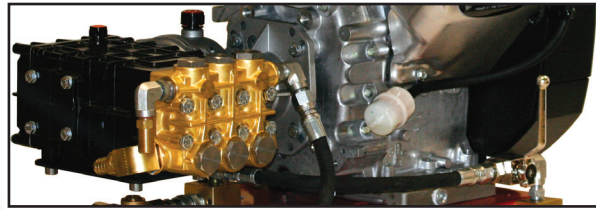

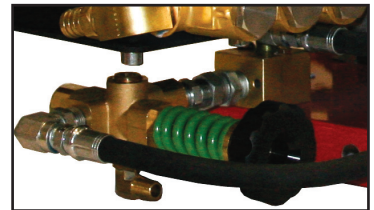

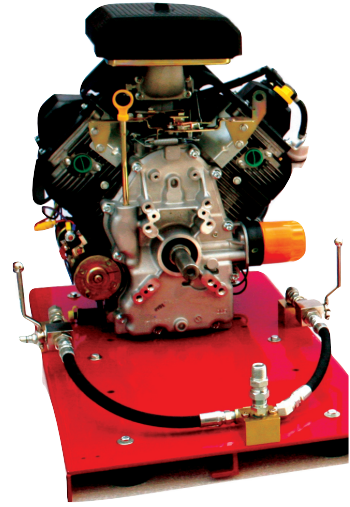

DUAL GUN SYSTEM FOR ONLY

\$2995.00

11 GPM @ 3000 PSI

OR

**2-GUNS RUNNING AT
5.6 GPM AT 3,000 PSI**

Part Number: PW301130BB-DP

Exploded view shows the baseplate configuration. This baseplate is constructed of 1/4" steel and has a 1/4" steel angle brace that eliminates flexing of plate. 6 rubber isolators serve to eliminate engine vibration. Two 7,000 psi ball valves allows the operator to be in total control of system performance.

The massive A-R Industrial Series gear driven pump is a proven workhorse in the professional mobile wash industry. This system also includes the YU2140 green spring unloader - the industry's number 1 selling pressure actuated unloader.

Injectors are included. Nozzles, guns, lances and hose are sold separately.

This is a WEB ORDER SPECIAL ONLY.

If you have question you must e-mail Chuck@envirospec.com - NO PHONE CALLS!
