

Problem: Are you taking the paint off trucks along with the dirt?

Solution: Prodigy

Did you know that many truck cleaning products are actually corrosive? Sure, they wash away the surface dirt, but since they work like paint strippers, they also wash away a microscopic layer of paint.

Eventually, the result of using these caustic chemicals is a dull looking finish, where there used to be a bright, shiny surface. The customer wonders why his equipment seems to be aging so quickly.

But contractors who try Prodigy by EnviroSpec see at first glance that its superior degreasing properties are simply better at removing

tough road grime. And the sparkling high-gloss finish that's left makes the entire fleet look new.

Which is probably why the major carriers clean hundreds of thousands of their vehicles with Prodigy, making it the

number 1 selling truck wash in the country. Find out more at EnviroSpec.com/Chem_Prodigy.htm

Looking for a high-foaming alternative? New Black Jack is perfect for hot climates where water evaporates quickly. It also rinses faster when using hot water.

So from now on, take off the dirt—and only the dirt.
