

ENVIROSPEC 'ROLLS-OUT' THE INDUSTRY'S FIRST 2-YEAR - FREE LABOR - PUMP WARRANTY

We have selected the industry's best & most popular pumps and are now including with your purchase 1 of 2 warranty packages.

PACKAGE 1 - LABOR ONLY: If for any reason your pump fails during the warranty period EnviroSpec will provide the service labor for FREE. While it is in for service we will change the oil, clean and perform a 42-Point Systems Evaluation. We will repair the pump and test it prior to it's return. All you have to do is ship the pump back to EnviroSpec pre-paid, pay for the parts and return shipping. Typically the freight both ways is around \$50.00 and the repair parts will be the same low price that is in our catalog at the time of the service.

A 1-Year Service Agreement is available for the pumps below with a Labor Only Warranty. This agreement will 'up-grade' your warranty to a 'Bumper to Bumper' warranty as outlined in Package 2.

PACKAGE 2 - BUMPER TO BUMPER: This is a premium package selected for specific pumps with low maintenance histories. It includes Package 1 plus all parts required to return your pump to 'like new' condition.
