#### READ & UNDERSTAND

the Material Safety Data Sheet Prior to Use  
If no MSDS is present call  
1-800-346-4876

For Industrial or Professional Use Only  
**KEEP OUT OF REACH OF CHILDREN**

# RESTORE

is an environment friendly,  
**NON-CAUSTIC DETERGENT**  
that works wonders on wood.

This product can be used to restore antique furniture.

**Perfect for Cleaning Cedar Shakes, & Unpainted Wood Surfaces**

**THIS PRODUCT CONTAINS  
NO  
BLEACH OR PHOSPHATE**

#### MIXING INSTRUCTIONS:

Restore should be mixed with hot water. Mix 1/2 to 1 pound of Restore per 1 gallon of hot water and stir vigorously until completely dissolved. Restore works by oxygenation and should not be mixed with water until the operator is ready to perform the job.

**Application:** There are several ways in which "Restore" can be applied. For large areas we recommend a 115 volt or 12 volt SHURflo pump. When using a pump-up sprayer you should exercise caution since this product generates it's own oxygen resulting in internal pressure build-up in an enclosed container. Apply heavy coat to the area to be cleaned.

**Dwell Time:** Initial Coat - Spray onto surface and allow to stand for approximately 15 minutes. Rinse lightly before the brightener coat is applied.

**Brightener Coat:** After the initial process is complete apply a second coat (brightener coat) and allow to stand for another 15 minutes and rinse well with low to medium pressure (1000 to 1500 P.S.I.)

#### Health & Safety Information EFFECTS OF OVER EXPOSURE

- Ingestion:** Damage to renal system may occur
- Eyes:** Causes severe eye irritation
- Skin:** Causes skin irritation
- Inhalation:** Causes respiratory tract irritation

#### Emergency First Aid Procedures:

- Ingestion:** Give 2 glasses of water. Call physician and follow commendations given. Never give anything by mouth to an unconscious person
- Eyes:** Immediately flush eyes with flowing water for at least 15 minutes, holding eyelids apart to irrigate thoroughly. If irritation persist get medical attention.
- Skin:** Immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing. If irritation persist get medical attention.
- Inhalation:** Remove to fresh air. If breathing is difficult, oxygen may be given, preferably with a physician's advice. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get immediate medical attention.
