**KEEP OUT OF REACH OF CHILDREN**

# SIL-O-WET

is a blend of silicone, polymers and hardeners

**FORMULATED FOR THE  
EXTERIOR HOUSE WASH INDUSTRY**

*This Product Contains:*

**“HIGH YIELD GLOSS ENHANCERS”**

## BLENDING INSTRUCTIONS

Sil-O-Wet can be used to seal house siding, bricks, and concrete as well as asphalt roofs. For further dilution through a down stream injector, pre-dilute 1 part product to whichever part water as shown below:

House siding & Bricks...9 parts water  
Concrete Floors..... 4 parts water  
Asphalt Roofs..... 4 parts water  
Tile Roofs..... 7 parts water

For direct spray applications dilute 1 part product to whichever part water as shown below:

House Siding..... 50 parts water  
Bricks..... 50 parts water  
Concrete Floors..... 25 parts water  
Asphalt Roofs..... 25 parts water  
Tile Roofs..... 40 parts water

## USE INSTRUCTIONS:

Work in small sections to avoid product from drying on the surface before rinsing. Rinse thoroughly. Sil-O-Wet should not be applied to any surface if the homeowner is planning on painting during the next 24-36 months. Because of the unique hardeners used in the formulation, Sil-O-Wet will remain on the surface for a long period of time.

Applying Sil-O-Wet to the surface after restoring old brick will generally turn the the brick 3-4 shades darker producing a much richer look.

## Health & Safety Information EFFECTS OF OVER EXPOSURE

- Ingestion:** Damage to renal system may occur
- Eyes:** Causes severe eye irritation
- Skin:** Causes skin irritation
- Inhalation:** Causes respiratory tract irritation

### Emergency First Aid Procedures:

•**Ingestion:** If swallowed, do NOT induce vomiting. Give large quantities of water or milk. Never give anything by mouth to an unconscious person. Get immediate medical attention.

•**Eyes:** Irritating, and may injure eye tissue if not removed promptly. Immediately flush eyes with large amounts of water for at least 15 minutes. Get prompt medical attention.

•**Skin:** Low order of toxicity. Irritating. Flush with large amounts of water. Launder contaminated clothing before reusing. If irritation persists, seek medical attention.

•**Inhalation:** Remove to fresh air. Get immediate medical attention..
