

# **SALES POSITION AVAILABLE**

for those of you who have the 'Gift of Gab'

My father used to refer to people who like to talk on the phone as having the 'Gift to Gab.' At the time I really wasn't sure what that

meant, but as I grew older and made friends with this incredible 'gift', I realized that my Dad was complimenting their ability.

Here is what Websters Dictionary says about this gift:

*'The ability to talk readily, glibly, and convincing.'*

***So I ask - do you have this gift?***

**If the answer is yes then let's see if we can't help you turn that gift into a great income!**
