

The EnviroSpec story began with a contractor just like you.

Forty years ago, John Allison realized that the harsh and ineffective chemicals that he was buying were compounded by chemists who never actually had to clean anything for a living.

So John began to experiment in his own small lab, testing his detergent formulas on the job, tweaking, and testing again. Eventually he developed a superior line of environment-friendly products for cleaning everything from vinyl siding to cement mixers. When he started selling his formulations, mobile wash pro's across the U.S. gladly became customers for life. Finally, John perfected the 'black magic' of super-concentrated SuperFLo Polymer.™

Next, John Allison added mobile wash equipment and parts to the offerings. The catalog grew...and kept growing. As an ex-contractor, he knew that discerning professionals needed better pressure washers. So he designed and built his powerful Allison Iron Horse equipment, a popular addition to the product line. From its headquarters in Georgia, EnviroSpec has now brought more cleaning items to the industry than all other suppliers combined.

Sharing knowledge. Equipment

and chemicals are only as good as the people who use them. So John Allison set out to help improve contractors' knowledge and skills as well. Today, EnviroSpec now sponsors free monthly training symposiums, as well as system certification programs

to keep professionals current in the latest technology and techniques. Plus anyone can go to EnviroSpec.com for expert resources like the *Technical Library* and *How to Wash All Your Stuff*.

Success offers the chance to make a difference.

Today, all of EnviroSpec's profits from chemical sales go to their *Soap for Hope* charitable foundation. Children who need operations, veterans who need a career opportunity, and abused, abandoned pets who need a caring home are all helped by EnviroSpec—and by extension, the mobile wash contractors who buy their products.
