

Prodigy

The Industry's #1 Selling Truck Wash Detergent

Specifically developed for the Truck Washing Industry

Non-Caustic Phosphate Free with Gloss Enhancers

Prodigy is, by far, one of the highest non-caustic detergent concentrations available in the industry. Prodigy exhibits excellent wetting, chelating, rinsing, and emulsification properties due to its high concentration of our SuperFlo Polymer Complex System. This exotic complex is formulated from a variety of unique dispersants, hydrotopes, and surfactants, which are not commonly found in detergent formulations.

Prodigy is a professional strength alkaline agent that is highly recommended for truck washing and degreasing. It can also be useful for a variety of other cleaning applications.

The general rule of thumb in detergent formulation is as follows: Approximately 1 gallon of water will hold approximately 1 pound of powder before separation begins. If your product begins to separate using this method, more often than not, your product has been camouflaged with what is known in our industry as "fillers". Fillers provide little to no value to the products integrity and/or performance. They are used primarily to add weight and increase the bottom line profit for the manufacturer. Using the 1 pound per 1 gallon rule, you can see the potency of Prodigy when you consider that we are able to thoroughly dissolve up to 2.3 pounds of Prodigy into 1 gallon of water without separation. To our knowledge, no other company can make this claim. The advantage of these concentration levels are twofold: 1) the contractor is now able to clean substrates that normally require the use of caustic cleaners and 2) work faster and safer, which increases your bottom line.

As the leader in contract cleaner formulations, EnviroSpec goes to great lengths in providing products that are both environment friendly as well as effective, an attitude not commonly found in such a demanding industry.

PH: 12.4-12.6

Caustic: No

Degreaser: Yes

Phosphates: No

Color: Brown

Scent: Cinnamon

Rinsing: Very good with hot water / Good with cold*

SuperFlo Polymer: Yes

Packaging: One 40 lb carton of powder with no liquid additives that will yeild 55 gallons of liquid detergent concentrate.

55 Gallon Professional Kit

40 lbs.
