and then  
there is a 'hotter hot...'  
**WHITE HOT**

## SUPER SKID

WITH COMPLETE  
BURNER DIAGNOSTICS

5.6 @ 3,500 - 18 Vanguard  
List Price \$7,975.00  
Contractor **\$4,495.00**  
18V-SDC-H5635

5.6 @ 3,500 - 20 HONDA  
List Price \$8,475.00  
Contractor **\$5,495.00**  
20H-ADC-H5635

6.3 @ 3,600 - 24 HONDA  
List Price \$8,975.00  
Contractor **\$5,695.00**  
24H-ADC-H6336

8.5 @ 3,500 - 30 KOHLER  
List Price \$9,975.00  
Contractor **\$6,495.00**  
30K-SDC-H8536

10.0 @ 3,000 - 30 KOHLER  
List Price \$9,975.00  
Contractor **\$6,495.00**  
30K-SDC-H1030

12.0 @ 2,700 - 30 KOHLER  
List Price \$9,975.00  
Contractor **\$6,695.00**  
30K-SDC-H1227

System Features:

- TS & TSF GENERAL PUMPS
- 18 & 30 HP VANGUARD, HONDA, KOHLER Engine
- The largest recharging systems in the industry
- The industry's largest and most efficient heating system
- Our Special Spec SDC 12 Volt Burners
- Allison Burner Diagnostic Center
- High Volume Fuel Tanks for long, uninterrupted runs.
- Hour Meter
- 5000 PSI Safety Burst Disc
- Hose, Gun, Lance & Nozzles included.

**DUAL PASS COILS**  
*The best coils in the industry!*

## ALLISON IRON HORSE CHEMICAL INDUCTION SYSTEM

12 Volt Injection System.

One Line in Chemical  
One Line to Injector  
Turn on Pump  
and Power Feed Chemical  
into the Chem Injector!  
Now that is how you  
get a lot of chemical  
on the surface!

To be used with a  
Pressure Type Unloader.

Comes with an Allison  
Super Suds Sucker  
Injector.

Can be detached and used to spray undiluted  
chemical when you purchase a gun, hose kit #1596

- |       |                        |          |
|-------|------------------------|----------|
| #1595 | INDUCTION SYSTEM, 12V  | \$199.95 |

PUMP

## HIGH VOLUME CHLORINE PUMPER

Up to 10 GPM & Up to 300 PSI

Relocement Pump  
#2777 **\$1297.42**

Regular Price \$2,695.00  
**#9878 \$1,995.00**

# ALLISON IRON HORSE PRESSURE WASHERS - 'Power in the hands of a few!'

## 65 HP KUBOTA DUAL PUMPER

### System Features:

- Two Allison Iron Horse Pumps with 5 year head warranty
- Kubota Industrial Power Plant
- High Capacity Recharge System
- High volume Allison downstream Chemical Injection
- Poly Chain 'never tighten' belts - Lifetime Warranty
- 24 Gal Fuel Tank for long, uninterrupted run times.
- Quick Drain Oil System for Engine & Pumps
- Tachometer/Hour Meter
- 5000 PSI Safety Burst Disc
- 7500 PSI On/Off Valves
- High Capacity Water Filtration System
- Glycerin Filled Pressure Gauges
- YU2140 Unloaders
- Unloader Mounting Blocks
- Lifetime Frame Warranty
- Lifetime Belt Warranty

## SALES POLICIES

### DISCLAIMER

Some of the pictures within this catalog are for illustration purposes only. Be sure and ask your sales representative if the item in question is represented by the picture herein. EnviroSpec reserves the right to limit quantities of any item in this catalog. Prices are subject to change without notice. It is the purchaser's responsibility to order by part number and to ask the sales representative to read back the order along with the current pricing and availability. This catalog is for the sole intent to sell to industry professionals only and possession of this catalog or any marketing material from EnviroSpec does not necessarily mean that we will be able to sell to you.

### RESTOCKING CHARGE

Any item that is ordered incorrectly and is returned to EnviroSpec within 30 days of purchase and in a "not used" or "not installed" condition with its box in the same condition and where the credit is to remain on the customer's account for future purchases will be credited at full purchase price less shipping. If the item in question is to be credited back to the customer's credit card it will be done so less 20%. If payment was made by check we will hold a credit in the customer's account. Any credit held in a customer's account must be used in its entirety when the customer places his/her next order. Remember, items must be returned pre-paid to EnviroSpec and must be in unused condition and showing no signs of mounting and/or installation and if the item has its own re-sell container/box that too must not show any signs of being damaged or crushed.

### RETURNS

Items ordered and not returned within 30 days from the original order date or items ordered that are not in our catalog ARE NOT returnable. If you are ordering an item that is not in our catalog and would like to talk to the manufacturer first we will gladly give you their phone number. Just ask!

### TERMS

EnviroSpec accepts Master Card, VISA, Discover, and AMEX. Pressure Washers must be paid for by Certified Funds ONLY or Wire Transfer. Chemical, Equipment, VacuBooms & Engines are not returnable. Shipping is never refundable.

### WARRANTY

All items sold in this catalog are NEW and not refurbished or used components. EnviroSpec does not warranty any item in this catalog except those that are manufactured by EnviroSpec. All warranties are presented to the buyer by the original manufacturer and must be returned, pre-paid, to EnviroSpec for evaluation and adjustments. All returned items must be accompanied by an "RGA" (Returned Goods Authorization) which EnviroSpec will provide to you. EnviroSpec WILL NOT send out replacement item(s) on a "no-charge" basis while EnviroSpec or the manufacturer is evaluating a returned item. If you need an immediate replacement you will have to purchase said replacement. However, you must understand that all items are covered by a "repair" or "replace" warranty and you could wind up with two of the same items. *We like to call them "spares."*

### EQUIPMENT PURCHASES

If you purchase a Pressure Washer or Hot Water Heater you do so under the same terms and conditions that a Pressure Washer Distributor would purchase said equipment. Simply put, we DO NOT provide any labor warranty but only a warranty on Parts and Components that go into the make-up of the final product. Also, you MUST UNDERSTAND that in shipping large equipment - nuts, bolts, components, etc. may work loose and adjustments may have to be made prior to using the equipment. If you indicate to us that you are familiar with the equipment so you will be able to take advantage of huge discounts and you find yourself needing a pressure washer distributor in your area to make adjustment or repairs for you - you will not be entitled to any labor reimbursement. Remember, you must be able to work on your equipment or you should buy from your local distributor.

### RECEIVING YOUR PACKAGES

DO NOT SIGN FOR ANYTHING that looks like it has been damaged! Refuse it so we can handle the UPS/Shipping Claim. IF YOU DO SIGN FOR IT and there is a problem WE CAN NOT HELP YOU. At that point you will have to contact the shipping company for adjustments. If UPS leaves a package without your signature and there are damages call your local UPS and have them pick up the package. Do not throw away any packaging on damaged goods. Save for UPS Inspection.

PSI: 3000 PSI  
#1203 \$17.68  
Ceramic Kit #1203 \$6.71

**Hose Whips for Trigger Guns**

#1202 1' Whip \$12.91  
#1172 2' Whip \$13.35

#1568 1' Whip, Swivel & 'QC' \$21.95  
#4103 2' Whip, Swivel & 'QC' \$22.95

The purpose of the Hose Whip is to extend the life of the quick connects & eliminate leaking. When you are pulling the hose using the gun and lance for leverage you are putting the quick connect in a "metal to metal" bind. When the whip is in place the quick connect coupler and plug will always be pulling in-line with the hose. PSI: 4,000

## 'PUSH & SNAP' QUICK COUPLER

*The Most Incredible Quick Couplers...  
...that you will ever use!*

This shows the coupler in the 'staged' open position. It remains this way until you push in the plug. When you do the coupler automatically 'snaps' closed.

Here you see just how easy it is to attach a 'quick connect' plug.

PART #	DESCRIPTION	PRICE
1901	1/4" FPT	\$4.99
1902	3/8" FPT	\$4.99

**Simply insert the plug & push!**

When you want the plug to release you will pull down on the collar and the plug will automatically release itself and 'snap' out of the coupler.

## BRECO 'USA'

PART #	BRECO PLUGS	PRICE
BP4F	1/4" FPT Inlet, 1/4" Out	\$1.18

#1265 \$53.71

**Performance Nozzle for Telescoping Wands**

- Quickly attaches to the telescoping wand to increase the chemical application distance by 25 feet & the wash/rinse distance by 40 feet.
- You can apply chemical from 0-65 degrees and rinse from 0-65 degrees without changing the nozzle.
- The 45 degree angle also helps support over 60% of the lance weight when trigger is pulled.

## SPECIALTY ROTATING CLEANING EQUIPMENT

### ROOF CLEANER

#1863  
\$1,027.96

Attach your hose...  
feed it down...  
and pull it back!

Adjustable Height  
from 7.7-9"

Max Pressure  
4000 PSI

Stainless Steel Housing  
provide approximately  
21" of Cleaning

### Under Carriage Cleaner MUD-CAT

#1869  
\$549.95

- Spins up to 3,000 RPM at 4,000 PSI
- Has 2 each 0° Nozzles for ripping heavy build-up and 2 each 15° Nozzles that rinse it away
- Includes 7500 PSI Ball Valve
- Collapses for easy storage

### FLAT SURFACE CLEANERS

#### MOSMATIC STAINLESS

#7753	21", 2-Bar, 4000 PSI	\$790.90
#7755	30", 3-Bar, 4000 PSI	\$930.81
#7756	Replacement Swivel	\$212.57

#### STEEL EAGLE ALUMINUM

#3751	24", 2-Bar	\$ 938.44
#3752	24", 3-Bar	\$ 962.63
#3753	24", 4-Bar	\$1030.38
#3754	30", 2-Bar	\$ 967.47
#3755	30", 3-Bar	\$ 989.25
#3756	30", 4-Bar	\$1164.25
#3757	30" 2-Bar Adj. Height	\$1282.80
#3758	30" 3-Bar Adj. Height	\$1304.57
#3759	30" 4-Bar Adj. Height	\$1379.57
#6117	Replacement Dublin Swivel	\$ 456.99

#### WHIRL-A-WAY

#1850	12" Polycarbonate, 2-Bar	\$122.13
#1853	20" Polycarbonate, 2-Bar	\$349.46
#1845	20" Stainless, 2-Bar	\$547.31
#1846	20" Stainless, 3-Bar	\$547.36
#1847	24" Stainless, 2-Bar	\$611.83
#1848	24" Stainless, 3-Bar	\$618.28
#1632	Replacement Swivel	\$159.95

## HIGH SPEED EXHAUST HOOD SWIVELS

MOSMATIC  
HOT WATER SWIVELS

These swivels require 1/8" MEG Nozzles  
Sold Separately

### FIXED 2-NOZZLE

- #1519 3", 2 NOZZLE \$237.88
- #1520 6", 2 NOZZLE \$253.01
- #1521 12", 2 NOZZLE \$258.05
- #1522 16", 2 NOZZLE \$263.10
- #1523 F20", 2 NOZZLE \$283.27
- #1524 24", 2 NOZZLE \$288.31

### FIXED 3-NOZZLE

- #1531 3", 3 NOZZLE \$242.93
- #1532 6", 3 NOZZLE \$258.05
- #1533 12", 3 NOZZLE \$263.10
- #1534 16", 3 NOZZLE \$268.14
- #1535 20", 3 NOZZLE \$288.31
- #1536 24", 3 NOZZLE \$293.35

To order the correct nozzles take the nozzle that you are presently using and divide it by the number of nozzles required by the Exhaust Hood Swivel you are ordering. For example: If you typically use a #6 nozzle such as a #1506 and you are buying a 3-Nozzle Swivel you will order 3 each #2 nozzles such as a #1502.

### ADJUSTABLE 2-NOZZLE

- #1525 3", 2 NOZZLE \$257.05
- #1526 6", 2 NOZZLE \$272.18
- #1527 12", 2 NOZZLE \$277.21
- #1528 16", 2 NOZZLE \$282.26
- #1529 20", 2 NOZZLE \$302.43
- #1530 24", 2 NOZZLE \$307.47

### ADJUSTABLE 3-NOZZLE

- #1537 3" 3 NOZZLE \$262.09
- #1538 6" 3 NOZZLE \$277.21
- #1539 12" 3 NOZZLE \$282.26
- #1540 16" 3 NOZZLE \$287.30
- #1541 20" 3 NOZZLE \$307.47
- #1542 24" 3 NOZZLE \$312.52

## P-SWEEP HYDRO-BROOM

- #1886 12" Sweep Only 3 Noz's \$29.96
- #1888 16" Sweep Only 4 Noz's \$36.60
- #1887 12" w/48" Lance & Gun 3 Noz's \$59.95
- #1889 16" w/48" Lance & Gun 4 Noz's \$69.95

## CAR WASH GUN/LANCE

Dual Valve Assembly when open draws soap and when closed goes to high pressure rinse

5,000 PSI Stainless Swivel makes cleaning in close quarters a breeze - rotate the lance 360°

#1259  
\$81.47

The bent end provides greater surface impact

Comfortable, Relax-Grip Gun for long hours of operation

### NOZZLE CLEAN-OUT TOOL

- #1878 BRASS \$5.35
- #1879 PLASTIC \$2.61

## PRESSURE NOZZLES

\$2.50 M-T-M \$2.50

3/4" G/Hose Inlet  
• 1/2" MPT to Pump #1019 \$4.36  
• 3/4" MPT to Pump #1020 \$5.30  
• Filter Washer Screen #1625 \$ .39

**Standard Float Valve**  
to 145 PSI to 140°F Temp  
3/4" Inlet  
• Plastic #1598 \$14.95  
• Brass #1599 \$18.95

**WATER FLOW METER**  
• No more guess work! Know exactly how much water you are supplying to your pump.  
• Precise Electronic Monitoring  
• Handles from 1-15 GPM

#1797 \$197.12

**FIRE HYDRANT HOSE**  
• Fill that 500 Gallon Tank in 2 Minutes Flat!  
• Complete with MxF NST Alum. Connector  
• Use PVC Pipe on the Tank End

#3336 50' x 2-1/2" \$168.49

**GARDEN HOSE CONNECTORS**

#1309 Single Shut Off \$5.30  
#1310 Dual Shut Off \$6.65  
#1311 Hose Connector \$2.61

**FLOAT TANK WITH COVER**  
Max Temp 140°F  
5" x 10" x 8"  
• Tank #1597 \$13.36  
• Filter #1234 \$ 9.95

**HUDSON FLOAT VALVE**  
No Moving Parts  
1" Inlet  
• 90° Temp Rating #1343 \$34.95  
• 150° Temp Rating #1344 \$39.95

**ROOF/ICE WALKERS**

#1683 4-7 SHOE SIZE \$29.95  
#1684 7-10 SHOE SIZE \$29.95  
#1685 10-14 SHOE SIZE \$29.95

**PREMIUM BRUSHES**

#1451 10" Truck Wash \$11.18  
#1450 10" Premium Truck & House \$14.95  
#1454 14" Premium \$16.95  
#1455 14" Fine Finish \$17.95  
#1452 18" Truck Wash \$18.95  
#1453 24" Truck Wash \$19.95  
#1456 Bi-Level, 10", Hi-Pile Green \$21.95  
#1457 Bi-Level, 10", Standard Yellow \$19.95  
#1459 Gutter & Exhaust Stack Brush \$21.95  
#1458 Bi-Directional Brush - 1/2 Circle \$29.95  
#1445 Rotating Brush \$29.95

## 32 SIZES OF TRUCK & EQUIPMENT WASH PADS & RECOVER FILTRATION

**See our 150 Page Web Catalog for a complete listing!  
Containment Pallets, Berms, Oil Socks, etc.!**

**EnviroSpec - where earth matters!**

# Welcome to Our **SMALL** Catalog!

**TINY-TACH**  
No more guess work!  
Mount permanently or use loose.  
Easy Installation!

For Gas Engines:  
#1429 **\$45.82**  
For Diesel Engines:  
#3407 **\$138.91**

**OIL DRAIN PLUG**  
For Engines & Pumps  
No more messy oil changes

For Gas Engines:  
#1428 **\$12.95**  
Will Not Fit Honda

**UNIVERSAL KEY SWITCH**  
Fits All Engines  
ON/OFF/START

#1430 **\$24.95**

**ALLISON ENGINE TERMINATOR**

Shuts down the engine if the pump head reaches 145° which often happens when you leave the trigger gun in the 'off' position for more than 3 minutes.

#1990 **\$29.95**

FOR "DC" CURRENT ONLY  
DO NOT INSTALL ON AC CURRENT

## ENGINES

PART #	DESCRIPTION	PRICE
CS7T	Kohler, 7 HP, 3/4" Shaft, w/Muf.	\$427.06
1772	Kohler, 8.5 HP, 1" Shaft, w/Muf.	\$728.54
1769	Kohler, 12.75 HP, 1" Shaft, w/Muf.	\$749.46
2068	Honda, 13 HP, 1" Shaft, w/Muf.	\$615.55
1829	Kohler, 18 HP, 20 Amp Recharge, 1" Shaft - w/Muf.	\$959.85
1732	Vanguard, 18 HP, 20 Amp Recharge, 1" Shaft w/Muf.	\$915.00
1830	Kohler, 22 HP, 25 Amp Recharge, 1-1/8" Shaft	\$1516.13
2069	Honda, 20 HP, 26 Amp Recharge, 1" Shaft w/Muf.	\$1495.00
1816	Honda, 24 HP, 26 Amp Recharge, 1-1/8" Shaft	\$1695.00
1831	Kohler, 25 HP, 25 Amp Recharge, 1" Shaft	\$1695.00
1832	Kohler, 27 HP, 25 Amp Recharge, 1-1/8" Shaft	\$1836.66
2888	Kohler, 28 HP, Water Cooled, 25 Amp, 1-1/8" Shaft Includes Control Module, Use Muffler #2340	\$1936.74
1833	Kohler, 28 HP, EFI Fuel Miser, 25 Amp, 1-1/8" Shaft	\$2162.37
1834	Kohler, 30 HP, 25 Amp Recharge, 1-1/8" Shaft	\$1845.16
1836	Kohler, 40 HP, 25 Amp Recharge, 1-7/16" Shaft	\$2721.51
KUB65	Kubota, 65 HP Diesel w/Shaft and Controls	\$6700.00

### MUFFLERS

1279	Kohler, 18-22 HP, Top Mount, Oil Filter Side	\$107.36
1280	Kohler, 18-22 HP, Top Mount, Starter Side	\$107.36
1282	Kohler, 18-22 HP, Low Mount, Oil Filter Side	\$147.63
1281	Kohler, 18-22 HP, Low Mount, Starter Side	\$134.21
1283	Kohler, 25-30 HP, Top Mount, Oil Filter Side	\$120.78
1284	Kohler, 25-30 HP, Top Mount, Starter Side	\$120.74
1286	Kohler, 25-27 HP, Low Mount Oil Filter Side	\$215.04
1285	Kohler, 25-27 HP, Low Mount Starter Side	\$215.04
2340	Kohler, 28 Water Cooled, Oil Filter Side	\$127.49

### KOHLER MAINTENANCE KIT

#### INCLUDES:

2 Quarts of Oil	Oil Filter
Air Filter	Pre-Cleaner
Fuel Filter	2 Spark Plugs

#6440 KIT Fits 18 HP bought from EnviroSpec **\$42.96**  
#6441 KIT Fits all Kohlers 22 HP through 30 HP **\$42.96**

### KOHLER FILTERS

PART #	Description	PRICE
1837	Long oil filter / Pro Series	\$10.68
1838	Short oil filter / Pro Series	\$10.68
1839	Fuel filter	\$ 6.65
1840	Air filter/Pre-Cleaner fits CH-25 & CH-27	\$11.66
1841	Pre-cleaner fits CH-25 & CH-27	\$ 6.05
1842	Air filter/Pre-Cleaner, CH-18, CH-20, CH-22	\$11.66
1843	Pre-cleaner fits CH-18, 20 & 22	\$ 6.05
3932	Donaldson Air Filter for Our 28 WC, 30 & 38	\$20.11
3933	Donaldson Safety Filter for 3932 above	\$24.29

**GAS CAP**  
Fits Honda GX Series

#1129 **\$2.47**

**KEY-WAY STOCK**  
1/4" - Super Hard

#3777 **\$9.71**

**BATTERY BOX**  
Tie-down Hardware  
Marine Grade

Large (Std. Size)  
#1690 **\$11.95**

Small (U1 Tractor)  
#4690 **\$11.95**

**PREMIUM FUEL LINE**  
1/4" Thick Wall  
For Gas or Diesel

#1196 **\$1.33**

**BATTERY TERMINALS**  
Heavy Duty  
Lead Construction

#1825 **\$2.00**

- Idles the engine down when you release the trigger.
- Returns to full throttle when the trigger is pulled.
- Not to be used on hot water machines equipped with a generator.

### ENGINE THROTTLE DOWN

#1665 **\$52.83**

### THROTTLE CABLE

Marine Grade

- 36" Cable can be cut to fit
- For precise speed control
- Auto Pre-sets
- Push Pull or 'Snap' Pull and lock
- Designed for harsh, moist environments

#1991 **\$48.73**

**FUEL TANK**  
For Large Cart Equipment  
Marine Grade

#4121 **\$54.95**

## MOELLER® 24 GAL TANKS

Includes  
Mounting  
Hardware  
& Cap

31.5Lx17Wx11H

#9400 RED 24 Gallon Tank for GAS ONLY **\$193.49**

#9401 BLUE 24 Gallon Tank for Diesel & Kerosene **\$193.49**

## DUAL OR SINGLE PUMPER FRAME

Pre-drilled for the following:  
18-40 HP Kohler, Briggs & Honda  
Dual or Single Pump Drive  
Generator with Single Pump  
Oil Drain Holes  
Includes 24 Gallon Gas or Fuel Tank & Battery Box

The best frame this industry  
has ever seen or ever will see!

#9997 **\$1,095.00**

### HONDA & VANGUARD FILTERS

PART #	Description	PRICE
1613	Honda Air Filter for GC160	\$7.99
1614	Honda Air Filter for GX160 & GX 200	\$7.76
1615	Honda Air Filter for GX240 & GX270	\$7.51
1616	Honda Air filter for GX340 & GX390	\$8.04
1733	Vanguard Pre-cleaner	\$4.42
1734	Vanguard Oil Filter	\$9.95
1735	Vanguard Air Filter	\$12.95
1617	Honda Oil Filter for GX620 or GX670	\$11.82
1618	Honda Spark Plug for GC&GX4HP to 13 HP	\$2.67
1619	Honda Dip Stick for GS260 & GX390	\$12.02
1620	Honda Dip Stick for GC135 & GX200	\$11.95

### BECKETT BURNER

- Interchanges with Wayne • Easy installation
- Special burner made to Espec specifications

One of the longest lasting, most trouble free Burners in the Industry!

- #1390 12Volt ADC - for Washers up to 6 GPM \$399.95
- #1391 12 Volt SDC - for Washers over 6 GPM \$499.95
- #1393 115 Volt AFG -for Washers up to 6 GPM \$359.95
- #1394 115 Volt SF - for Washers over 6 GPM \$379.95

### BURNER MOTORS

Fits Beckett & Wayne Burners

- #1410 3450 RPM, 1/7 HP, 115V (2456U) \$ 69.95
- #1411 3450 RPM, 1/5 HP, 115V (2900U) \$ 99.83
- #1412 3450 RPM, 1/6 HP, 13.5V (21699U) \$ 89.95
- #1413 3450 RPM, 1/4 HP, 12V (21539) \$149.95
- #1414 3450 RPM, 1/4 HP, 115/240V (21344) \$109.95
- #1415 3450 RPM, 1/4 HP, 240V (2899) \$ 99.95

### BURNER TRANSFORMERS IGNITERS

- #1404 12V IGNITOR ASSY SDC BECKETT \$127.49
- #1405 12V IGNITOR ASSY ADC BECKETT \$127.49
- #1406 TRANSFORMER FOR 120V 'A' BECKETT Old Style \$ 64.12
- #1407 TRANSFORMER FOR 230V 'A' SERIES BECKETT \$ 64.12
- #1408 TRANSFORMER FOR 230V 'S' SERIES BECKETT \$ 69.65
- #1409 TRANSFORMER FOR 120V 'A' BECKETT SMALL VERSION - See 1406 for old style \$ 48.08
- #1375 IGNITER, WAYNE, 12V, BACK HINGE FOR MSR \$119.95
- #1376 TRANSFORMER, WAYNE, 120V SIDE HINGE \$ 79.13
- #1377 TRANSFORMER, WAYNE, 120V, BACK HINGE \$ 93.93
- #1378 TRANSFORMER, WAYNE, 230V, SIDE HINGE \$ 83.47

### CHECK-MATE TRANSFORMERS/IGNITER TESTER

#1947 \$59.95

No more guessing! Simply touch the two electrodes & if the light comes on the unit is fine.

### BURNER CONTROLS

- #1370 PRESSURE SWITCH, 3,650 PSI, 1/4" MPT \$23.95
- #1371 PRESSURE SWITCH, 3,650 PSI, 3/8" MPT \$23.95
- #1372 PRESSURE SWITCH, 6,500 PSI, 1/4" MPT \$69.95
- #1367 FLOW SWITCH, VERTICAL \$39.95
- #1368 FLOW SWITCH, VERTICAL OR HORIZONTAL \$39.95
- #1369 FLOW SWITCH, TMT, 12 GPM \$42.99
- #2272 PHOENIX, RATED TO 18 GPM \$114.95
- #1373 VACUUM SWITCH, FOR GAS ENGINES \$22.76
- #1374 VACUUM SWITCH, FOR ELECTRIC MOTORS \$22.76

### SET-UP YOUR OWN 12 VOLT BURNER DIAGNOSTIC CENTER

It will tell you in 2 seconds what it would normally take 2 hours to figure out on your own. A very simple wiring job using the enclosed instructions will have you up and running with a complete 12 volt burner diagnostic center on your machine in 'no time flat'.

**It takes them - 2 HOURS to figure out why their burner is not working. It will take you - 2 SECONDS!**  
#4001 \$197.21

### THERMOSTATS & HI-LIMIT SWITCHES

- #1349 PREMIUM THERMOSTAT TO 310 DEGREE \$29.95
- #1425 STANDARD THERMOSTAT TO 194 DEGREE \$24.95
- #1884 PRE-SET THERMOSTAT, SHUTS OFF AT 160° \$24.95
- #1885 PRE-SET THERMOSTAT, SHUTS OFF AT 190° \$29.56
- #1426 IN LINE THERMOSTAT \$54.95
- #1107 HI LIMIT SWITCH WITH LEAD \$22.39

### FUEL PUMPS

- #1399 FUEL PUMP, A2VA7116 \$44.89
- #1400 FUEL PUMP, A1VA7112 \$79.95
- #1402 FUEL PUMP, A1YA7912 \$81.22
- #1397 BECKETT FUEL PUMP WITH 115 VOLT SOLENOID \$69.95
- #1398 BECKETT FUEL PUMP WITH 12 VOLT SOLENOID \$69.95
- #1396 REPAIR KIT FOR BECKETT SOLENOID, 12 VOLT \$19.95
- #1395 REPAIR KIT FOR BECKETT 115V SOLENOID \$19.95

### FUEL SOLENOIDS

For Beckett & Suntec

- #1418 SUNTEC 120 VOLT \$29.95
- #1392 SUNTEC 220 VOLT \$29.86
- #1417 SUNTEC 12 VOLT \$29.95

### BURNER REPAIR PARTS FOR BECKETT & WAYNE

- #1350 Gasket for burner to coil \$ 5.37
- #1217 Blower Wheel, Beckett SF - SM 5-3/4D x 3-7/16W \$17.39
- #1312 Blower Wheel, Beckett AFG 4-1/4 x 2-7/16 \$19.95
- #1197 Blower Wheel, Beckett ADC 4-1/4D x 2-7/16W \$19.95
- #1261 Blower Wheel, Beckett SR 6-1/4D x 3-7/16W \$19.95
- #1199 Blower Wheel, Beckett SDC 6-1/4D x 3-7/16W \$19.95
- #1170 Blower Wheel, Wayne 5-3/16 x 3-7/16 \$19.95
- #1201 Blower Wheel, Wayne 6-1/4 x 4-3/16 \$19.95
- #1171 Blower Wheel, Wayne 4-1/4 x 3-1/8 \$19.95
- #1277 Blower Wheel to Pump Coupling Beckett SM - SF \$ 5.71
- #1278 Blower Wheel to Pump Coupling Beckett AFG \$ 5.71
- #1198 Blower Wheel to Pump Coupling Beckett ADC \$ 5.71
- #1200 Blower Wheel to Pump Coupling Beckett SDC \$ 5.71

## THREAD LOCKER

Medium  
#1057 \$49.95  
High Strength  
#1058 \$49.95

## PUMP OIL

General 6-Pak/16 oz.  
#1064 \$24.95  
General 24-Pak/16 oz.  
#1065 \$98.95  
BE 1 Liter Bottle  
#1066 \$ 7.99  
CAT 1 21 oz. Bottle  
#4788 \$9.95

## TAPE - TEFLON & ELECTRICAL

#1651 TAPE, TEFLON 520' x 1/2" \$ .82  
#2151 USA Premium Teflon, 520' x 1/2" \$1.61  
#1601 TAPE, ELECTRICAL, 3/4" X 60', UL \$ .90

## PUMP HEAD ANTI-FREEZE

#1768 \$6.95

## SEWER JETTING VALVE

For TT Pumps  
#1004 \$65.42  
For EZ Pumps  
#1005 \$66.83  
For T & TS Pumps  
#1006 \$54.95  
For TSF Pumps  
#3340 \$79.95

## GEAR BOXES

Dual Bearing Allison  
#1028 1" \$257.96  
Dual Bearing Allison  
#1029 1-1/8" \$257.96  
Udor to 30 HP  
#5750 1" \$225.77  
Udor to 30 HP  
#5751 1-1/8" \$225.77

## 'QC'TEST TOOLS

Connects between Unloader & Hose

#1232 'QC' Body without Gauge \$ 7.03  
#1233 'QC' Tester with Gauge \$14.36

## PACKING INSERTION KIT

For General Pumps

#1063 \$19.95

## PACKING EXTRACTOR

Slide Hammer & 15, 18, 20, 22 & 24 mm. sockets

#1007 \$68.18

Rebuild your own GENERAL PUMP and save HUNDREDS! IT IS SO EASY.  
**GENERAL PUMP REBUILD 'CD'**  
#GPV-101 \$14.95

## PRESSURE GAUGE

3,000 PSI  
#1130 \$12.16  
4,500 PSI  
#1131 \$12.16  
6,000 PSI  
#1132 \$12.16  
10,000 PSI  
#1133 \$12.16

A 'MUST HAVE' TOOL!

## PUMP HEAD PRESSURE TESTER

#1229 \$59.95

- Not sure why you are losing pressure
- Remove Unloader and attach direct to head
- INSTALL CORRECTLY SIZED NOZZLE
- Hold trigger securely and start engine and see exactly what you pump is capable of producing

## CLUTCH PULLEY

Fits on Pump for Engines up to 22 HP

#9333 \$267.60  
Allison Soft Touch Unloader is required. #7638

## PUMP RAILS HEAVY DUTY

For Gas Engine Pressure Washers

#1653 \$29.95

## FRAMES

Belt Drive to 30 HP  
#9900 \$299.95  
Gear Drive to 30 HP  
#9901 \$299.95  
13 HP DD Cart  
#2049 \$79.95  
Plate to 30 HP  
#1899 \$39.95

**4,000 PSI**  
**General Pump**

#9869 \$1092.33

**PREMIUM HOSE REEL HOSE & TANK TO EQUIPMENT HOSE**

**FIGURE 'A'** is what a healthy, non-collapsing hose looks like. The advantages are: When on a hose reel the first few layers will not 'mash down' and restrict the flow of water from the source to your supply tank. Also, when you use this hose to feed water from the supply tank to the machine the heat will not make this hose become 'spongy' and restrict water flow.

**FIGURE 'B'** is what is found on 95% of all the hose reels in the country. It too is a premium grade industrial water hose that is higher in quality from what you will find in a hardware store. This is the same hose I had to live with for 15 years as a Mobile Washer and it was not fun. It took forever to fill my supply tank for obvious reasons.

Comes with 'crimped on' faucet connector with 'strain relief'.  
 The other end is open so it will attach to a barb on the reel.

- #3401 3/4" - Price per foot to connect Water Tank to Machine. No Ends. \$ 3.95
- #3415 3/4" x 150' with Crimped GH Connector & Strain Relief. Other end open. \$387.63
- #3430 3/4" x 300' with Crimped GH Connector & Strain Relief. Other end open. \$692.12

**ALLISON/GENERAL PERFORMANCE PACKAGE**

Get 10 times the life out of your GENERAL PUMP!  
 Pump STOPS DEAD when the trigger is released.

Other Pump Configurations Available.  
 Please call 1-800-346-4876

Assembly includes:  
 TS2021B with Clutch Installed, Engine Pulley &  
 Allison Soft-Touch Unloader with Micro-Switch  
 (Let us know eng. shaft size so we can send you the correct pulley)

**#TS2021BCUEP**  
 Simply Install the Soft-Core unloader, connect a couple of wires  
 and you are ready to go. Belts are not included.

**TIRED OF BUYING & REBUILDING PUMPS?**

What if you could extend the rebuild intervals by 10 times? Now you can!

Simply install this  
**2-GROOVE, 12 Volt CLUTCH**  
 that shuts down the pump  
 when you release the trigger.

Assembly includes:  
 Clutch System, Engine Pulley &  
 the Allison Soft-Touch Unloader  
 with Micro-Switch  
 (Let us know your engine shaft size)

This Allison Unloader is by far the sweetest, softest feeling unloader in the industry! Even when comparing it to the K-7. A must try unloader!

For 1450 RPM/24MM Shafted Pumps

- Up to 18 HP #9101
- Up to 30 HP #9102

9102 Available in March 2010

Simply remove old Pump & Engine Pulley and replace with the Clutch Package Pulleys. Install the Soft-Core unloader, connect a couple of wires and you are ready to go. Belts not included.

# Our Prices are always current on our Web Site!

We carry the complete line of  
The Industry's Most Popular Pumps

Listed below is a very small sampling of our pump inventory. If you do not see what you need just call. I am sure that one of our 2,000 available pumps will be the right one for you.

**HERE ARE A FEW EXAMPLES:**  
*and remember - we pay the freight!*

## HIGH TEMP KIT #1 - #2035

Complete Hi-Temp Head Rebuild For GENERAL PUMPS

# FIBER

Specifically Formulated to Rejuvenate Wood Fibers

40 LBS

**FIBER** is the purest form of Oxygenated Cleaner & the only oxygenated cleaner with an Orange Solvent

We are widely regarded as one of the leading global experts in the development and implementation of Green cleaning solutions and the invention Fiber-X, our latest wood rejuvenator, is a good example why most experts turn to EnviroSpec to help them with their toughest cleaning projects.

Fiber-X is a blend of oxygenators, orange peel solvents and cross-linked surfactants that break the degenerative cycle of drying & decaying wood fibers that begins when environmental factors come into play. When used as directed Fiber-X breaks this cycle by allowing the wood to breath more efficiently. The orange peel solvents help to penetrate and eliminate any existing wood destroying bacteria by weakening it's cell wall. When the cell wall is weakened or disrupted, it can no longer function. This forces the cell to burst due to osmotic effects (water rushing into the cell). At this point wood fibers can recapture their shape while continuing to exist in a harsh outdoor environment.

For best results place 1/2 to 3/4 pound of product into a clean 5 gallon pail filled with slightly warm water. Pour in the product and stir 8-10 times. At this point approximately 80% of the powder will still be at the bottom of the pail. Apply by placing the chemical pick-up line from a 12V or 115V ShruFlo or Flojet pump at the bottom of the pail and begin to drench the wood surface. By the time you have completely drained the pail all of the product will have been solubilized through its own oxygenation process. Allow to stand for approximately 15-20 minutes and rinse.

In some cases, especially with pressure treated wood, the surface will 'fuzz.' This will normally return to its natural state in a few days. Occasionally a light sanding may be required. It is because of this that we recommend a 1/2 pound per gallon of warm water for pressure treated wood.

#ZPFIB \$89.95 or #10FIB for 10 Kit Price \$69.95

## PRO-BLEND

Quick Rinsing Truck & House Wash loaded with Water Softeners

40 LBS

'Film Free' Cleaning in the Truck & House Washing Industry

SuperFlo Polymer Gloss Enhancers - Water Softening Additives - Nonionic Surfactant Base

Pro Blend is, by far, the most effective non-caustic, film free cleaning detergent concentrate in the professional contract cleaning industry. When used properly, the operator can expect to remove 85% to 90% of all road film from both tractor and trailer bodies that are cleaned on a regular basis.

Pro Blend exhibits excellent wetting, chelating, rinsing and emulsification properties due to its high concentration of our SuperFlo Polymer Complex System. This exotic complex is formulated from a variety of unique dispersants, hydrotopes, and surfactants which are not commonly found in detergent formulations.

The power from Pro Blend originates from a wide variety of uniquely charged ion surfactants, which will alter a positive charged substrate to a negative charge upon contact. This bond breaking function will provide the operator with a one-step cleaning process, rather than the typical acid-alkaline or two-step process that is presently being utilized throughout the industry. The advantages of single step cleaning, using Pro Blend, are twofold, 1) the contractor will be able to provide his/her customer with a much higher quality service, at a much lower cost, or should they choose, greatly enhance their own profit margin, and 2) eliminates the possibility of etching glass which can easily happen when using solutions with a hydrofluoric acid content.

#ZPPROB \$119.95 or #10PROB for 10 Kit Price \$99.95 - Freight Pre-paid - Each Kit makes 55 Gallons of Concentrate 5 Gal. Power Pack #PB5 \$29.95

**WE PAY THE FREIGHT ON ALL CHEMICAL REGARDLESS...**

**...for us to do for them. Without you it wouldn't work!**

## PREMIUM 'HIGH YIELD' DETERGENT WITH LAUROX LO

58  
LBS

High Foaming Blend of Emulsifiers, Solvents & 'Quick Rinse' Agents.  
It is loaded with Water Softeners, Static Reducing Additives & Gloss Enhancers.

### FORMULATION OBJECTIVE: **SPEED IN CLEANING AND RINSING**

BLUE LIGHTENING is the result of blending the very best 'job specific' ingredients that cover every aspect of a cleaning task that will insure the 'perfect clean.' We wanted speed - which meant we had to get the product on the surface - have it do it's job - and get it off the surface quickly.

We added a large amount of LAUROX LO which quickly wets the surface while at the same time generates a substantial 'foam bed' that keeps the soil suspended in the liquid so that it does not redeposit itself on the surface during the cleaning process.

It is formulated with 'top shelf builders.' Not one 'builder' but several are utilized and each has a specific purpose. Some provide alkalinity to aid in cleaning & keeping emulsified soil in suspension. Others emulsify oil and grease and overcome problems associated with water hardness.

BLUE LIGHTENING has a generous amount of SuperFlo Polymer. It is this product that has placed EnviroSpec as the leader in Gloss Enhancing detergent chemistry.

BLUE LIGHTENING can be used in virtually every type of cleaning environment. Truck Washing where heavy build-ups of exhaust carbon and 'road static' are present, House Washing, Brick and Masonry Cleaning, Car Washing, Wood Surfaces & Engine Degreasing are just a few of the cleaning tasks that are easily handled by Blue Lightning.

#ZPBL \$178.00 - Freight Pre-paid - Each Kit makes 55 Gallons of Concentrate

5 Gal. Power Pack #BL5 \$29.95

### FOR ACID DAMAGED GLASS

## GLASS DE-ETCH

Jewelers use a lesser grade of this compound to polish out scratches on expensive crystal.

Glass De-Etch is a Rare Earth Glass/Crystal Polishing Compound to be used when severe acid damaged has occurred to any glass.

#### USE INSTRUCTIONS:

Mix with water to the consistency of pancake batter and wipe on windshield. Using a electric buffer with a low pile polishing pad buff briskly into the surface. Work in small areas.

A high stock removal rate, which is partially due to the narrow particle distribution resulting in a low percentage of fines, leaves a clear, bright finish.

#ZPGDE \$44.95 - Freight Pre-paid - Enough for 10 Windshields

### FOR SOAP DAMAGED GLASS

## SCUM BUSTER

**Did you let soap dry on the glass?  
Yes Scum Buster Really Works!**

Scum Buster is manufactured from the world's finest Rare Earth Glass Polishing Compounds.

#### USE INSTRUCTIONS:

Mix with water to the consistency of warm syrup. Wipe or paint onto glass and briskly polish surface.

#ZPSB \$44.95 - Freight Pre-paid - Enough for an entire house

### Exhaust Carbons Explode from the Surface!

## 'OCB' EMULSIFIER

**"OIL EATING" Super Solvent-Surfactant  
for those 'nasty' Truck Fleets  
that are loaded with exhaust carbon.**

**'OCB' Emulsifier can be added to any  
Drum Pack of EnviroSpec Detergent  
in concentration levels of  
1 Gallon to 55 Gallons.**

Ask any Professional Mobile Washer who washes trucks and they will tell you that not a 'shift' goes by without running into at least one account that is loaded with exhaust carbon on the 'stack side' of the trailer. When this happens it takes forever to finish that account and when you think you are through...

...the job still looks terrible!

All of the EnviroSpec Truck Wash Products are loaded with 'OCB' Emulsifier already but occasionally even that is not enough

Add 1 Gallon of 'OCB' Emulsifier and watch the carbon & grease - *explode off the surface!*

#ZLOIL1 \$39.95 - Freight Pre-paid  
1 Gallon - Treats 1 55 Gallon Drum of Detergent

**...OF DOLLAR AMOUNT OR HOW IT IS ORDERED!**

# Have you visited your local animal shelter lately?

The Industry's #1 Selling Truck Wash

40  
LBS

## PRODIGY

How good is it? We have one customer who purchases 5,500 drum packs a year!

**CONTAINS SUPER GLOSS ENHANCERS**

Prodigy is, by far, one of the highest non-caustic detergent concentrations available in the industry. Prodigy exhibits excellent wetting, chelating, rinsing, and emulsification properties due to its high concentration of our SuperFlo Polymer Complex System. This exotic complex is formulated from a variety of unique dispersants, hydrotopes, and surfactants, which are not commonly found in detergent formulations.

The general rule of thumb in detergent formulation is as follows: Approximately 1 gallon of water will hold approximately 1 pound of powder before separation begins. If your product begins to separate using this method, more often than not, your product has been camouflaged with what is known in our industry as "fillers". Fillers provide little to no value to the products integrity and/or performance. They are used primarily to add weight and increase the bottom line profit for the manufacturer. Using the 1 pound per 1 gallon rule, you can see the potency of Prodigy when you consider that we are able to thoroughly dissolve up to 2.3 pounds of Prodigy into 1 gallon of water without separation. To our knowledge, no other company can make this claim. The advantage of these concentration levels are twofold: 1) the contractor is now able to clean substrates that normally require the use of caustic cleaners and 2) work faster and safer, which increases your bottom line.

As the leader in contract cleaner formulations, EnviroSpec goes to great lengths in providing products that are both environment friendly as well as effective, an attitude not commonly found in such a demanding industry.

Since PRODIGY came out in 1986 it has grown to be the most asked for Truck Wash Detergent in the Mobile Wash Industry.

#ZPPRO \$119.95 or #10PRO for 10 Kit Price \$99.95 - Freight Pre-paid

## MR. MUSCLE

What is Mr. Muscle?  
PRODIGY with extra Grease Cutters

**CONTAINS 'EB' SOLVENT BOOSTERS  
QUICK RINSE ADDITIVES  
AND EXTRA GLOSS ENHANCERS**

Mr. Muscle has a 40 pound base of Prodigy, the industry's #1 Selling Tractor/Trailer Wash, plus 2.5 gallons of solvent/surfactant additive that really cranks up the horsepower and safely cuts through the heavy build-up of carbonaceous pollutants such as the exhaust typically found on over-the-road trailer bodies and 'fifth-wheel grease!'

Mr. Muscle runs circles around all the degreasers found in the marketplace and at a price that is well below what you would expect to pay for such a product.

In addition, you will find it to work extremely well with both hot and cold water systems. The addition of SpeedX-777 which is part of the liquid additive makes rinsing a breeze.

Mr. Muscle exhibits excellent wetting, chelating, rinsing, and emulsification properties due to its high concentration of our SuperFlo Polymer Complex System. This exotic complex is formulated from a variety of unique dispersants, hydrotopes and rinse aids which are not commonly found in detergent formulations.

Typical applications for the concentrate are:  
Tractor/Trailer Bodies, Engines, Fork Lifts, Garage Floors, Rail Cars

As the leader in contract cleaner formulations, EnviroSpec goes to great lengths in providing products that are both environment friendly as well as effective, an attitude not commonly found in such a demanding industry.

#ZPMRM \$189.95 or #10MRM for 10 Kit Price \$152.95 - Freight Pre-paid  
Each Kit makes 55 Gallons of Concentrate  
**5 Gal. Power Pack #MRM5 \$29.95**

## EMULSIFIER PLUS

The Industry's #1 Selling House Wash

40  
LBS

**BLEACH FRIENDLY DETERGENT WITH GLOSS ENHANCERS**

**For the very best of all worlds start with 4 gallons of Emulsifier Plus to 1 Gallon of Bleach**

Emulsifier Plus - is one of the Original House Wash Formulas developed by EnviroSpec. Our dilemma at the onset of its development stages were: we all knew bleach works better than anything for killing and cleaning mold & mildew but we also knew that bleach does absolutely nothing about cleaning carbonaceous pollutants such as exhaust carbons, dirt, grease and grime. The task was - how to do both at the same time!

Bleach, for the most part, does not like to be blended with other chemical products and many of the chemical products found in the professional mobile wash industry can create a serious explosive situation when mixed with sodium hypochlorite (bleach). Emulsifier Plus, on the other hand, is the answer to both the safety issue as well as the cleaning problem. These two products work extremely well together when blended and applied in accordance with the EnviroSpec instructions. Have the best of both worlds - Clean and Kill Mildew and Clean All the other Pollutants typically found on an exterior substrate. And do it all in one pass!

Emulsifier Plus has a pH of around 11.8 to 12.0 in a 1% solution. This unique blend of Surfactants & Builders has been specifically formulated for the House Wash Industry as a stand alone detergent or a detergent additive to be blended together with Bleach.

Emulsifier Plus works great on removing heavy build-ups of grease, grime and general fallout pollutants generally found in high traffic areas and exhibits excellent wetting, chelating, rinsing, and emulsification properties. Its ability to hold pollutants in suspension during the wash process makes it an ideal product when using either hot or cold water pressure washers.

#ZPEMUP \$119.95 or #10EMUP for 10 Kit Price \$99.95 - Freight Pre-paid - Each Kit makes 55 Gallons of Concentrate  
**5 Gal. Power Pack #EMUP5 \$29.95**

The Industry's Only 'FILM FREE' Truck Wash

House Wash with Solvents & Mildew Release Agents

78  
LBS

## BOND BREAKER

Contains **STATiX™**

**An exclusive product of EnviroSpec specifically formulated to eliminate 'STATIC CLING' ON VEHICLE SURFACES**

Bond Breaker is the most incredible product of its kind in the industry. Never has anyone been able to remove as much of the film caused by electromagnetic bonding of particles which results as the vehicle cuts it's way through the wind.

Typically this attempt is performed through the use of caustics such as Sodium or Potassium Hydroxides which are typically found in the paint stripping or exhaust hood cleaning industries. These products should never be utilized to clean painted vehicles. Yes, when applied the dirt and debris starts to roll off the surface but behind that dirt is a microscopic layer of the painted surface coming off with it. As the process continues the vehicle surfaces become dull.

Bond Breaker utilizes a unique blend of products to break the magnetic field which holds the film particles on the surface. Given the best of all the elements, soft water, ambient temperatures and cleaning methods, Bond Breaker will remove 99% of all film from the surface. Worst case scenario you can expect 95%-97% removal.

Our development model for Bond Breaker was as follows:

- 1) It had to have an extremely quick reaction time yet Safe to use.
- 2) It had to dissolve grease and carbon on contact with minimum dwell time
- 3) It had to produce a minimum of 92% film free surface.
- 4) It had to have exceptional rinsing characteristics.

**Bond Breaker** is not for everyone. It is an expensive product to formulate and stabilize. It is aimed at a unique market that demands the very best and expects it to perform accordingly.

## LIMONENE

Contains Pure d'Limonene Solvent

**Exterior House Wash  
Orange Peel Solvents and  
High Yield Gloss Enhancers**

In recent years the evolution of the environment conscious homeowners are becoming much more educated in the field of exterior house washing. They are saying 'no-more' to the contractors who are using the unfriendly bleach that has been so popular for so long simply because it is inexpensive to purchase and, until now, there have been few alternatives for removing mold and mildew.

The solvency in Limonene originates from citrus by-products such as orange and lime peels. These solvents, coupled with specific pH balanced surfactants and builders, provide the contractor with an excellent product that quickly removes carbonaceous pollutants such as oil and grease and other fallout pollutants commonly found in the house washing industry. Pollutants such as gutter streaks, mold/mildew, etc. For the first time ever they are experiencing safe and effective surface chemistry that deals with wood, aluminum and vinyl siding and the pollutants common to those surfaces.

Limonene has excellent hydrotoping characteristics through the use of a unique dispersant complex which is not commonly found in detergent chemistry. This complex, known as SuperFlo Polymer, has been developed by EnviroSpec and is found throughout our detergent formulary because of its tremendous ability to add horsepower to virtually every type of alkali detergent products while remaining much more gentle than the alternatives. You will find that Limonene has superior rinsing qualities in both hot and cold water environments which results in cleaning faster and safer.

**All Products Produced by EnviroSpec are Certified**

#ZPLIM \$129.95 or #10LIM for 10 Kit Price \$109.95 - Freight Pre-paid

## FOAM & SHINE

**SINGLE PASS CLEANING! INCREDIBLY FAST RINSING!**

**GREAT SHINE!**

**HIGH FOAM CLEANING! SOLVENT FREE!**

***That is what the 'Foam-N-Shine' Formula is all about!***

Using the finest builders in the industry and adding in specific water softening and foaming additives plus a blend of unique 'chelating agents' which 'tie up' the metallic ions in water has resulted in that 'always looked for' but 'seldom found' black magic formula that we now call...

## FOAM-N-SHINE

FOAM-N-SHINE exhibits excellent wetting, chelating, rinsing and emulsification properties due to its high concentration of our SuperFlo Polymer Complex System. This exotic complex is formulated from a variety of unique dispersants, hydrotopes, and surfactants which are not commonly found in detergent formulations. With this 'double dose' of SuperFlo Polymer you can expect exceptional brilliance on most surfaces.

FOAM-N-SHINE dramatically reduces surface tension so pollutants 'roll-off' the surface with ease without having to brush. With special wetting agents you will find that FOAM-N-SHINE keeps the surface wetter longer allowing the contractor more flexibility in washing larger areas without having to worry about the surface drying before rinsing. FOAM-N-SHINE works extremely well with cold water or hot water equipment.

## POWER HOUSE

Specifically formulated for  
Cold Water Equipment & 'Hard Water' Areas

POWER HOUSE was developed for cold water washing where hard water is present. This product contains an over abundance of water softening chelating agents which makes it well suited for hard water areas throughout the country.

Typically hot water is the preferred method of applying and rinsing cleaning chemicals from the surface. However, you will find POWER HOUSE to work equally as well in a cold water environment. This is especially important in States like Florida, Georgia & Texas where it is not uncommon to see surface temperatures in the 130 degree range. Since heat generates alkalinity you can see how dangerous it can be when detergent is applied to the surface using a hot water pressure washer. Quite often this method results in alkaline shock where the water from the detergent evaporates and damages the surface before the operator has time to rinse. More often than not this damage is irreversible. Use Power house to avoid this danger.

The dispersant utilized in POWER HOUSE allows for a high concentration of specific builders and surfactants which will completely emulsify carbonaceous as well as general 'fall-out' pollutants commonly found in areas that see a lot of motor vehicle traffic. POWER HOUSE contains a high volume of our SuperFlo Polymer which accounts for it's surface gloss.

Although POWER HOUSE is considered a Super Concentrate you will find that it will provide a great wash/rinse cycle while remaining gentle on the surface.

POWER HOUSE is a unique blend of specialty surfactants and alkalis specifically formulated for the Professional Exterior House Washing Industry. It acts by first wetting and chelating pollutants and then holding them in suspension until the surface is thoroughly rinsed. POWER HOUSE is less aggressive on surface and vegetation than typical cleaners used in this field but will achieve superior cleaning results.

## VIPER

Specifically formulated for  
Truck & Bus Washing Industry  
Non-Caustic Degreaser  
with Gloss Enhancers for Dull Surfaces

Viper is a specialty product specifically formulated for the Truck Washing & Bus Washing Industry where exhaust fumes have become attached to the stack side of the trailer body & rear engine areas of City Buses. Coupled with carbon release activating solvents and rinse aids, Viper also finds itself being utilized in other areas where the heavy build-up of grease & oil is present. Garage Floors, Vehicle Maintenance Shops, and Service Stations are just a few of the many areas where Viper is utilized.

Viper is preferred by many professionals who have scheduled cleaning of commercial vehicles with a frequency of weekly or every other week service. It is a quick cleaner and a fast rinser. Areas where this product is being utilized is on Hertz, UPS, Ryder and many other Nationally known vehicle accounts.

Viper exhibits excellent wetting, chelating, rinsing and emulsifying properties. It has the ability to hold pollutants in suspension during the wash process and it's rinsability makes it an ideal product when using either cold or hot water equipment.

Viper's horsepower is derived from a group of Specialty Gloss Enhancers, Spot Free Rinse Aids, and a unique blend of surfactants which are not commonly found in the detergent industry.

Viper comes packaged in a two-part system. One part is approximately forty (40) pounds of Base Product. The second part is one gallon of Carbon Release Activator. The two combined will make 55 gallons of a super concentrate.

Experience the Power of Zoloid Cross-Linked Surfactants

## Z'GREASER

60  
LBS

THE INDUSTRY'S MOST POWERFUL  
DEGREASING FORMULA

If you find yourself in a real 'bind' over removing oils and grease you will be amazed at what z'Greaser will 'cut'!

z'Greaser is the most powerful non-caustic formula in the degreasing chemical industry. Over 40 pounds of powder plus liquid activators are blended together to make 55 Gallons of liquid concentrate.

In general, z'Greaser was formulated to disrupt the surface membrane of grease in order to first free and then solubilize membrane-bound pollutants while, at the same time, holding those pollutants in solution and not allowing them to redeposit themselves elsewhere on the surface prior to rinsing.

Because of its wide range of a unique Zoloid Surfactant which is produced by EnviroSpec, z'Greaser can be utilized in a wide variety of cleaning applications. We have tested this product extensively in the truck washing industry and found that at a final product to surface dilution level of 225 parts water to 1 part product, z'Greaser produced the best results in 98% of our test models. In the heavy equipment degreasing industry 90 parts water to 1 part z'Greaser proved to be the best dilution rate.

Although expensive on a per unit basis, when you consider the unlimited cleaning projects that can be performed by z'Greaser at these phenomenal dilution rates you can readily see that this is really one of the most cost effective products on the market. It is not uncommon to have 1 drum of z'Greaser Concentrate to equal 5 drums of what is presently being sold to the Professional Mobile Wash Industry by other manufacturers.

**WE PAY THE FREIGHT ON ALL CHEMICAL REGARDLESS...**

**...finds it's way to a needy child or hungry animal.**

Concrete Cleaner & Brightener

The Only Non-Caustic Exhaust Hood Cleaner

**80 LBS** **POWER STROKE**

**80 LBS** **HOOD PRO**

Specifically Formulated For  
**FLAT SURFACE CONCRETE CLEANING**

Specifically Formulated For  
**RESTAURANT EXHAUST HOOD CLEANER**

"Power Stroke" has successfully replaced the harsh caustics that have been being used for years. The science behind Power Stroke has made it the Professionals First Choice.

10 years ago they were sceptical. Today more contractors are using Hood Pro as their First Choice Cleaner over the strongest Caustics on the market!

Contains:  
**CONCRETE BRIGHTENING AGENTS**

Until now Professionals have always had to rely on corrosives for the real tough hood cleaning jobs but not anymore! Hood Pro has revolutionized the industry by providing the contractor with a product that cleans as quick and effective as the 'hottest' hydroxide products in the industry while leaving him completely 'scare free' and with hair still on his arms when the job is complete. Only a Professional Exhaust Hood Contractor can fully appreciate that statement.

*Power Stroke is the highest non-caustic detergent concentration available in the industry.*

EnviroSpec's HOOD PRO product is the non-caustic workhorse of the professional exhaust hood cleaning industry. Known for it's consistent high performance, this powerful grease dissolving formula is being used more and more by the professionals who know and understand the disadvantages of using sodium or potassium hydroxide products. The "power" from Hood-Pro comes mainly from a wide variety of special 'ion' charged surfactants not commonly found in the detergent formulary industry. Coupled with a unique "builder" base, HOOD-PRO exhibits unbelievable pH stability and excellent foaming characteristics.

Power Stroke has been specifically formulated for heavy-duty oil/grease removal for untreated concrete. Unlike the caustics typically used in this industry Power Stroke is much more user and surface friendly when it comes to over spray.

You will find Power Stroke cleans much 'quicker' than caustics and acids due to it's excellent wetting, rinsing and emulsification properties and SuperFlo Polymer Complex System.

The general rule of thumb in detergent formulation is as follows: Approximately 1 gallon of water will hold approximately 1 pound of powder before separation begins. If your product begins to separate using this calculation, more often than not, your product has been camouflaged with what is known in our industry as fillers. Fillers provide little to no value to the products integrity. They are used primarily to add weight and increase the bottom line profit for the manufacturer. A typical filler would be Soda Ash. Using the 1 pound per 1 gallon rule you can see the potency of Power Stroke when you consider that we are able to thoroughly dissolve up to 2.5 pounds of Power Stroke into 1 gallon of water without separation. To our knowledge - no other company can make this claim. The advantage of these concentration levels are two fold: 1) the contractor is now able to clean substrates that normally require the use of caustic cleaners and 2) work faster and safer which increases your bottom line.

HOOD PRO offers excellent and economical grease dissolving, foaming, wetting, emulsification and biodegradability needed for today's specialized contractor. HOOD PRO is 100% active and highly concentrated. For example; the 'hottest' hydroxide products consist mainly of 50 pounds of powder to 50 gallons of water. The finished HOOD-PRO product will yield 55 gallons which is compounded from 80 pounds of the finest builders and performance driven surfactants in the industry

HOOD PRO will respond to your most difficult cleaning project with ease and provide you with an environment which is much safer to humans and less damaging to the surface.

**Heavy Duty Detergent with Gloss Enhancers**

**40 LBS** **BIO-GREEN**

Until now - most 'so called' environment friendly cleaners have been little more than 'watered down' products that have been sold under another name.

Choosing environmentally friendly cleaning products and eliminating toxic ones has always been what EnviroSpec is all about and Bio-Green is the latest addition to our arsenal of environment friendly products.

Bio-Green, a variation of the Limonene family, is the answer to everyone's concerns about Earth Friendly products that really can clean.

Bio-Green is truly a workhorse in the industrial and institutional detergent industry. Known for consistency, EnviroSpec, has developed this product to be the answer to all of the concerns in the vehicle cleaning and house washing industry as well as other projects requiring special surface active properties.

Bio-Green offers excellent and detergency, foaming, wetting, emulsification and biodegradability needed for today's specialized high performance cleaning products. It has excellent foaming characteristics which will provide the user with the necessary visual requirements to determine concentration levels on the surface being cleaned. Yes, Bio-Green can respond to your toughest needs, whether it's a medium duty truck or house wash job or a 'down and dirty' forklift with years of grease and grime. And it can do all this and still be gentle on the world we live in.

For Trucks With Polished Aluminum Tanks

52  
LBS

## NEVER DULL

Specifically formulated for  
**Vehicles with Polished Aluminum Tanks,  
Imron Paint & Expensive Lettering.**

Never Dull is the preferred product for Vehicles that are, without question, products of an image conscious customer. A lot of time and expense goes into the production of such vehicles. Imron paint itself is very expensive as is the lettering and graphics that present the company's position in the marketplace. With all this in mind, however, nothing, absolutely nothing will get a fleet owner more upset or irritated than when you 'dull' their polished aluminum tanks.

When used according to our recommendations Never Dull is the perfect cold water product that has a unique blend of citrus solvents, surfactants & chelators that we've designed specifically for those trucks that need a product 'tuff' enough to remove carbonaceous pollutants such as grease and fuel over-spill as well as general fallout pollutants, yet gentle enough to clean tanks and never leave them looking dull.

Along with these special blends, Never Dull also has a 'double dose' of Speed -X 777 which keeps the pollutant in solution not allowing it to redeposit itself elsewhere on the surface prior to rinsing. This product is recommended to be used with cold water equipment. The reasoning behind this is because heat generates alkalinity and since Never Dull has a specific balancing of "builder to surfactant" the introduction of heat (hot water) makes it's design both unpredictable and uncontrollable.

In order to avoid 'alkaline shock' remember to cool down the surface prior to product application.

Never Dull is the perfect blend for those 'perfect vehicle finishes.'

Truck Wash With Extra Carbon Release Activators

51  
LBS

## RELEASE

**Non-Caustic formula with 'High yield'  
Carbon Release Solvents & Gloss Enhancers**

Release is a high solvent, medium duty vehicle detergent for finer finishes than typically found on 'over the road' Tractors, Trailers & Straight Trucks. This product would be your first choice for vehicles that are washed weekly or every other week. Vehicles such as package delivery, school buses, airport shuttle vehicles that do not see heavy road use but are exposed to carbonaceous pollutants typically found in 'close quarter' operation would be good candidates for Release.

-Companies whose vehicles are presently being cleaned with the Release formula are Hertz, UPS, FEDX, DHL and New York Airports not to mention thousands of School Buses. This product was developed while cleaning Connecticut Natural Gas vehicles in the 1980's and have been an industry favorite ever since.

- Release is a non-caustic detergent concentrate that contains Gloss Enhancing additives that will help to keep vehicles looking good longer. This product will not harm delicate graphics typically found on such vehicles.

-Release exhibits excellent wetting, chelating, rinsing and emulsification properties. Its ability to hold pollutants in suspension during the wash process and not allowing them to be redeposited makes it an ideal product when using cold or hot water systems. The unique 'grease release' activator in RELEASE quickly removes oil/grease pollutants from the substrate.

-Release comes packaged in a two-part system. One part is approximately forty pounds of Release Base Product & the second part is one gallon of Carbon Release Activator. When mixed they make 55 gallons of a super concentrate with a very long shelf life.

## PREPEZZ

20  
LBS

**PRE-PAINT SURFACE PREP WITH PAINT BONDING AGENTS**

This non-caustic, specialty solvent based pre-paint prep product has been specifically formulated to safely remove surface oxidation, mildew and general fallout pollutants prior to painting while leaving behind a unique 'paint to surface' bonding environment.

When used properly PrePEZZ will insure that your finished product will last many years longer than what you would normally expect based on paint manufacturers claims. Our unique SuperFlo Polymer Additive, an EnviroSpec exclusive, charges the surface in such a manner that 'locks down' paint adhesion. Used properly the professional painting contractor can be assured that they will never be called back to the job site because the paint is "lifting" or "flaking".

PREPEZZ is sold in a 20 gallon powdered kit form that can be easily dissolved into a solution when needed.

PREPEZZ can be used with hot or cold pressure washers and does not contain harmful caustics or bleach.

ForGutter Streaks & Heavy Oxidation

60  
LBS

## RIPPER

### Remove those 'nasty' Black Streaks on Gutters & Heavy Surface Oxidation?

Our House Wash Collection offers a rich assortment of job matched cleaning products that are uniquely EnviroSpec. RIPPER is just one in that collection that has been making the Exterior House Washing Professional's job so much easier for so many years. To professionals, the real beauty to any of the EnviroSpec performance products is how fast, how effective and how safe they are to use.

RIPPER, developed specifically for gutter streaks & oxidation removal, utilizes several blends of high-performance solvents and specially blended surfactants to deliver optimum efficiency. Knowing that no two gutters will clean alike, EnviroSpec has incorporated into RIPPER a variety of solvent blends that will work independently on the specific pollutant that has created the streak. One of these unique solvents will attack and eliminate the problem.

Of all the questions that have been thrown at us about house washing - the question of how to safely remove gutter streaks is by far the most frequent. We know that solvents are the only products that will safely remove gutter streaks and RIPPER has more than twice the solvent content than most cleaning products in our industry.

After it's introduction into the industry in 1987 RIPPER soon became the envy of many companies who are in the business of manufacturing products for such a demanding industry. Many of those companies sell sodium or potassium hydroxide base products to tackle the gutter streak problem and the unsuspecting contractor buys them not knowing that what they are actually buying are paint strippers. RIPPER is a more effective and much safer way to eliminate the gutter streak & oxidation problem.

## PREMIER

### Specifically formulated for Colored Siding with Oxidation

After cleaning - Premier leaves a SILICONE MEMBRANE on the surface which is designed to retard the formation of mildew and to keep general 'fall-out' pollutants from adhering to the surface..

Premier would also be your first choice for cleaning new homes in a housing development where the pollutant being cleaned is primarily mildew and general 'fall-out' pollutants. This type of cleaning does not require the solvent but only mildew release agents and gloss enhancing additives. Premier would also be a great choice for houses or mobile homes that are cleaned annually.

Premier takes a bow for impressive performance in providing a thorough wash/rinse cycle while remaining gentle on new aluminum, vinyl and wood siding.

Premier is a unique blend of specialty surfactants and alkalis specifically formulated for the Professional Exterior House Washing Industry. It acts by first wetting and chelating pollutants and then holding them in suspension until the surface is thoroughly rinsed.

Premier is less aggressive on surface and vegetation than typical cleaners used in this field but will achieve superior cleaning results.

Premier is ideally suited for both a hot and cold water pressure washers. By chelating of both calcium and iron in water and a unique water softening additive Premier will provide 'spot free' rinsing when used in accordance with the manufacturers instructions.

#ZPPRE \$119.95 or #10PRE for 10 Kit Price \$99.95 - Freight Pre-paid

## Mildew Retardant & Surface Protector with Gloss Enhancers

50  
LBS

## PLEX-MASTER

### Specifically formulated for the Exterior House Washing Industry

Plex-Master is a blend of silicone & silicone hardener, polymer and mildew retardant that will enhance the appearance of Vinyl and Aluminum Siding, Painted Wood and Metal surfaces after cleaning. Plex-Master is also an excellent product that will eliminate or substantially reduce the reformation of mold and mildew on all surfaces.

Plex-Master provides a distinctive edge that will separate the Professional Contract Cleaner from the "Splash 'N Dash" house washer. For just pennies per job the contract cleaner can provide the homeowner with a 'cleaner clean' and a 'brighter shine' that will last much longer than that of their closest competitor.

When you explain the advantages of using environment friendly products that will leave the soil exactly the way you found it and the added benefit of the Plex-Master application you have virtually left your competitors in the 'dust (dirt)'. With the addition of this product to your sales presentation you will be washing houses from \$400.00 and up even though your competitor quoted them for \$79.95. This is a fact that has been proven time and time again.

Mildew, which will form on virtually anything, will be much easier to remove when the surface has been coated with Plex-Master. In most cases the homeowner will be able to keep the surface looking 'alive' and free of mildew with an occasional rinse down using a standard garden hose. Another great feature of Plex-Master is that once applied and rinsed before it has been allowed to dry, the windows will be 'squeaky' clean. Apply & rinse in 15 minutes.

## MAKE YOUR OWN CAUSTIC EXHAUST HOOD CLEANER

# PERFORMANCE BUILDER

26  
LBS

## WAIT! DON'T BUY ANY MORE CAUSTIC HOOD CLEANERS

*if you do you are wasting even more money!*

Personally speaking I think one of the biggest 'scams' perpetrated on the Professional Mobile Wash Industry is trying to make them think that there is a lot of 'rocket science' that goes into producing high performance, caustic exhaust hood cleaners. There isn't and if you insist on purchasing those type of products - well then - you are just wasting a lot of money because anyone can make them.

Simply purchase a drum of 85% Potassium Hydroxide and add one gallon of

### PERFORMANCE BUILDER PLUS

Sodium Hydroxide and Potassium Hydroxide Exhaust Hood Cleaners and Paint Strippers (same thing) are nothing but 1 gallon of surfactant added to the drum and stirred in. Nothing more - *nothing less*. The secret is this - because of the aggressiveness of these two raw materials there are only a couple of surfactants that are stable in the solution for any period of time and they are not cheap. Because of the cost of this family of surfactants many manufacturers rely on a nine mole surfactant such as that found in typical detergents and slap a label on it and out the door it goes. The trouble here is that by the time you get the product the surfactant has been overwhelmed by the hydroxide to a point where it has exhausted it's ability to perform. Performance Builder Plus is a blend of high yield, caustic stable surfactants & emulsifiers that will hold up indefinitely and help to 'crank up' the horsepower of the raw material.

Next time you decide to buy a caustic cleaner order up a gallon of Performance Builder Plus. Then look in your yellow pages for your local chemical supplier. If you can't find one call Univar at 800-233-0633 or <http://www.univarusa.com> or Brentag Mid South at 800-289-4020 or <http://www.pbschemical.com> for their location nearest you.

A premium caustic exhaust hood cleaner would be one where 50 pounds of sodium hydroxide beads are mixed with 55 gallons of water along with one gallon of Performance Builder Plus. Exercise caution when mixing sodium hydroxide beads with water. Add very slowly otherwise there can be a violent reaction where the product will blow back on you. After the beads have been added stir in the Performance Builder Plus. If you use Potassium Hydroxide you will purchase that in a 85% liquid form. Typically a manufacturer will make 4 drums out of 1 drum of the 85% solution. In this case you will need 4 each 2.5 gallon containers of Performance Builder Plus. EXERCISE CAUTION when working with any chemical product. Read and understand the MSDS and all safety information about the products being handled. Wear protective clothing and safety glasses. Do not allow any unprotected person or animal around the mixing area. Clean up when done.

#ZLPBC \$79.95 or #ZLPBC55 (55 GAL) Price \$817.95 - Freight Pre-paid - 1 Gallon of PBC will treat 55 Gallons of Caustic

### NEED TO THICKEN A PRODUCT?

### QUICK RINSE ADDITIVE

5  
LBS

## KLINGON

### WANT IT TO LAY ON THE SURFACE LONGER?

.40 Pounds of KLINGON is all you will need to turn a 5 gallon pail of detergent or exhaust hood cleaner into a rich, thick solution!

Need a product that 'clings' to the surface? Or maybe a product that will provide you with that added dwell time that many projects require.

KLINGON is a non-acidic blend of natural thickeners and foamers that work in both alkalis as well as some acids such as many of those found in the aluminum brightening industry. Call for acid compatibility.

This is especially useful in the exhaust hood cleaning industry where product to surface dwell time is crucial.

Most thickeners on the market are formulated by introducing an acid into an alkali to thicken the product. When this happens product neutralization occurs. This leaves the operator with a thick product but one with dramatically reduced performance characteristics.

KLINGON can easily be adjusted to produce a slightly thickened product or a 'wall paper-paste' type product should you require a brush or roll-on paint stripper.

#ZPKL5 \$44.95 - Freight Pre-paid - Enough for 75 gallons of product

Oxygen Deck & Shake Cleaner

40  
LBS

## RESTORE

### Simply Put - Awesome! BRINGS OLD WOOD BACK TO NEW

Cedar Shakes & Unpainted Wood Surfaces such as Decks - Stripping Antique Furniture - Cleaning Tile Grout - Laundry Presoak & Bleach Replacement - Carpet Cleaning ... *you just won't find anything better than RESTORE!*

For Cedar Shakes and unpainted Wood Decks simply spray RESTORE on, wait 20 to 30 minutes, and rinse off. You will not believe your eyes! No more harsh bleach or surface and vegetation aggressive chemicals. Totally removes black mold and mildew build-up on shakes, regardless of how long it has been there.

RESTORE works by means of oxygenation and should not be mixed with water until the operator is ready to perform the job. Once RESTORE is in solution, the operator will have approximately 1-2 hours before the product has exhausted itself. Mix up enough so that you will be able to get the product on the surface within this time. Mix approximately 1/2 to 1 pound of RESTORE into 1 gallon of water and stir several turns. Complete solubility is not necessary since RESTORE will go into solution on it's own through the oxygenation process. Using a ShurFlo Pump place the pick-up line in the solution and spray product directly onto the surface. When product has removed pollutant, rinse with low pressure, 500 - 1000 PSI is all that is required. When using this product on pressure treated wood we recommend the 1/2 lb to 1 gallon of water ratio and rinsing with no more than 500 PSI. Higher dilutions and pressures will cause the surface to 'fuzz' up. When this happens it is generally a temporary situation that will correct itself in a couple of days. Do not use a pump-up sprayer to apply Restore since this product builds pressure when added to water and will over pressurize the sprayer which could result in an injury should the sprayer erupt.

This product will provide unbelievable results. You will be able to produce twice the results in 1/3 the time and with little to no mess. You'll never use harsh chlorine cleaners or solvent based strippers again.

Neutralizes, Brightens & Repairs Unpainted Wood

40  
LBS

## DECK & SHAKE BRIGHTENER

### High pH 'detergent beds' especially sodium or potassium hydroxide, shorten the life of wood.

The Deck Restoration Industry has grown considerably in recent years. As is the case when most great ideas are conceived - experts seem to blossom overnight as they have done here. This is not always a good thing.

In the Professional Mobile Wash Industry contractors quite often find themselves in the 'clutches' of many companies with so-called 'revolutionary' cleaning products that are merely extremely high pH detergents of which most are either sodium or potassium hydroxide based. These are great products but not for this industry. The hydroxide family of products are extremely effective in the drain cleaning and exhaust hood cleaning industries but certainly not wood cleaning. When used for wood cleaning they immediately start breaking down wood fibers.

More often than not this idea of using an excessively strong alkali detergent 'bed' has been introduced to kill mold and mildew. We have a product, RESTORE, that will do this without harming the wood but even if RESTORE is not the product of choice a very diluted solution of bleach would be a much better choice than high pH detergents.

Deck & Shake Brightener is a product that will do 2 things. First it will brighten weathered wood and revive it's natural color. For years this product has been a favorite among furniture craftsman who occasionally find themselves in a situation where a dark or stained spot needs to be blended back in to match the rest of the wood. Second it can be used as the necessary "bandage" when contractors insist on using these strong detergents and the wood has darkened as a result. Or they have to follow behind another contractor who has darkened the wood and doesn't know how to fix it. Deck & Shake Brightener quickly starts reversing this action upon contact. Typically, the darkened surface will be back to normal in 1-4 days.
