

THE CONTRACTOR'S #1 'GO TO' SOURCE SINCE 1972

# New from EnviroSpec

...the people who have brought more great products to the industry than all other companies combined now brings you the...

## QUANTUM-Z UNLOADER

The unloader that replaces **EVERY** unloader in the industry!

### Why a Quantum-Z?

Every time you release and pull the trigger using a trapped pressure unloader you are 'hammering' away and reducing the life of virtually every component on the pressure washer. Trigger guns, hoses, pumps, engines, motors, quick connects all take a 'beating' with these unloaders.

When people purchase this unloader and pull the trigger for the first time they always smile and most call to say thanks!

### do-u-use...

#### FLOW UNLOADERS

that you are constantly replacing or adjusting?

### do-u-use...

#### TRAP PRESSURE UNLOADERS

that knock your teeth out when you pull the trigger?

**...if you do you can 'trash' them all!**

The Quantum-Z is just one more reason why more Mobile Washers call EnviroSpec!

Save 10% and order from [www.envirospec.com](http://www.envirospec.com)

try the pinky test!

### HOW SWEET YOU ASK?

This is the only unloader in the industry that has passed the our 'pinky finger' test.

### THAT'S RIGHT!

Using any trigger gun in the industry a two year old can pull the trigger with their little pinky!

The Unloader that has all the **GREATEST FEATURES** of every unloader you have ever liked!

'Zero' pressure by-pass producing a 'limp' hose while in by-pass!

Feels much better than the K-7 or any other unloader on the market!

One size fits all! No need to try and size an unloader to the GPM of your machine!

Adjust like a pressure unloader and feels better than a flow!

...and another great feature is - you will never have to purchase an easy-pull trigger gun again! This unloader makes every gun so easy to pull that even a 2-year old can pull the trigger with only one finger and that is not an exaggeration!
