

## Viper

Specifically developed for the  
Truck Washing Industry  
where heavy exhaust carbons  
are present.

Viper is Non-Caustic and contains Carbon Release Activators & GLOSS ENHANCERS

Viper is specialty product specifically formulated for the Truck Washing Industry where exhaust fumes have become attached to the stack side of the trailer body . Coupled with carbon release activating solvents and rinse aids, Viper also finds itself being utilized in other areas where the heavy build-up of grease & oil is present. Garage Floors, Vehicle Maintenance Shops, and Service Stations are just a few of the many areas where Viper is utilized.

Viper exhibits excellent wetting, chelating, rinsing and emulsification properties. Its ability to hold pollutants in suspension during the wash process makes it an ideal product when using either cold or hot water equipment.

Viper's horsepower is derived from a group of Specialty Gloss Enhancers, Spot Free Rinse Aids, and a unique blend of surfactants which are not commonly found in the detergent industry.

Viper comes packaged in a two-part system. One part is approximately forty (40) pounds of Base Product. The second part is one gallon of Carbon Release Activator. The two combined will make 55 gallons of a super concentrate.

55 Gallon Professional Kit  
Weight 50 lbs.
